BUDGET INTRODUCTION

The City of Marshall's largest source of revenue, like many local units of government across Michigan, is property taxes. In the State of Michigan, property tax growth is restricted to the cost of living for existing properties plus the taxes on new construction.

Real property values are rising modestly and are reflected in the anticipated slight increase in tax revenues. Personal property tax reform in the State of Michigan continues to restrict the amount of taxes the City can collect on personal property.

Another large source of revenue for the General Fund is State shared revenues. Revenue levels have seen modest growth as these funds are based on State sales tax collection, which continues to be a stable source of revenue. There are two parts to State shared revenue: Constitutional and Statutory. Constitutional revenue is distributed based on a formula and is mandated by the State Constitution. Statutory revenue is subject to the City completing additional requirements to receive this revenue.

The City has two new funds this budget cycle: the American Rescue Plan Act (ARPA) fund and a Debt Service fund. The ARPA fund will reflect the activity for federal funds received and projects paid for with federal dollars. This is a Special Revenue fund. The Debt Service fund will reflect the activity for the debt payments for the Unlimited Tax General Obligations bonds for road improvements.

The City continues to market available land within the Industrial Park. The partnership with Marshall Area Economic Development Association is expected to enhance the City's economic development by improved marketing of vacant City property, and assisting local business owners with training and guidance to enhance their sustainability.

The City of Marshall continues to face economic challenges while utilizing opportunities at our disposal to provide ongoing, quality services to the citizens of Marshall. The budget for FY2023 reflects this philosophy.

July 1, 2022	FY 2023 Budget goes into effect.

CITY OF MARSHALL

FY23 BUDGET

FUND DESCRIPTIONS

The City of Marshall's financial structure is composed of various funds, many of which operate like separate businesses within the organization and have their own set of balanced accounts. Budgets for each of these types of funds are adopted separately except for fiduciary funds. Funds are differentiated by category (governmental, proprietary, or fiduciary) and by type (general fund, special revenue, debt service, capital projects, enterprise, internal service, and custodial). These funds are further differentiated between major and non-major funds.

GOVERNMENTAL FUNDS

Governmental fund financial statements focus on near-term inflows and outflows of spendable resources. The budgeting and accounting for governmental funds are recorded on a modified accrual basis. The main operating fund for the City of Marshall is the General Fund, a major fund, used to account for the resources devoted to funding general government operations such as Public Safety, Clerk, Finance, Public Works, and general administration.

Non-major Special Revenue Funds

This type of fund is used to account for the proceeds of specific revenue (and expenditures) that are legally restricted to a specific purpose and accounted for on a modified accrual basis. Examples of Non-major funds for the City of Marshall are Major Streets, Local Streets, Municipal Streets, Recreation Fund, Airport, Leaf & Brush, Downtown Development Authority (component unit), and the Local Development Finance Authority (component unit).

Non-major Debt Service Funds

This type of fund is used to account for the resources used in the repayment of long term debt, interest, and related costs. These funds are budgeted and accounted for on a modified accrual basis.

Non-major Capital Projects Funds

This type of fund is used to account for the resources used in acquiring and constructing capital facilities, street projects, and other capital improvements. These funds are budgeted and accounted for on a modified accrual basis.

PROPRIETARY FUNDS

This type of fund accounts for the acquisition, construction, operation, and maintenance of certain facilities or operations that is intended to be entirely self-supported by user fees and charges. Proprietary funds are both enterprise funds and internal service funds. Proprietary funds are budgeted and accounted for on a full accrual basis.

Enterprise Funds

The City of Marshall uses enterprise funds to account for its electric, wastewater, water, solid waste, public transportation (DART), FTTP (Fiber to the Premise) and Marshall House. These are all considered major funds.

Internal Service Funds

Internal Service Funds are an accounting tool used to accumulate and allocate costs internally among the City's various departments. The City uses internal service funds to account for motor pool and data processing.

CUSTODIAL FUNDS

Custodial funds are used to account for resources held for the benefit of parties outside of City government and cannot be used to support any City program. Custodial funds are accounted for on a full accrual basis. The City of Marshall does not adopt a budget for custodial funds as one is not legally required.

MARSHALL CITY CHARTER

ARTICLE IX - GENERAL CITY FINANCE

Amended November 8, 2016

SECTION 9.01 – FISCAL YEAR

The fiscal year of the City shall begin on the first day of July and end on the thirtieth day of June of the following year. Such year shall constitute the budget year of the City Government.

SECTION 9.02 – BUDGET PROCEDURE

On or before the first Monday in March the administrative officials, department heads, boards and commissions of the City, shall submit to the City Manager an itemized estimate of their expenditures for the next fiscal year. The City Manager or the City Manager's designee, shall prepare a complete itemized budget proposal for the next fiscal year and shall submit it to the council at its first meeting in April. This proposal shall include the following: (1) the previous year's budget figures and actual expenditures; (2) the itemized estimates submitted to the City Manager; (3) an account of all revenues received in the current and preceding year and an estimate of all revenues for the next fiscal year; (4) and the City Manager's recommendations.

SECTION 9.03 – BUDGET DOCUMENT

The budget document shall present a complete financial plan for the ensuing year. It shall include at least the following information:

- (a) detailed estimates of all proposed expenditures for each department and office of the City showing the expenditures for corresponding items for the current and last preceding fiscal year, with reasons for increases and decreases recommended, as compared with appropriations for the current year;
- (b) statements of the bonded and other indebtedness of the City, showing the debt redemption and interest requirements, the debt authorized and unissued, and the condition of sinking funds, if any;
- (c) detailed estimates of all anticipated income of the City from sources other than taxes and borrowing, with a comparative statement of the amounts received by the City from each of the same or similar sources for the last preceding and current fiscal years;
- (d) a statement of the estimated balance or deficit, as the case may be, for the end of the current year;
- (e) an estimated of the amount of money to be raised from current and delinquent taxes and the amount to be raised from bond issues which, together with income from

other sources, will be necessary to meet the proposed expenditures and commitments of the City Government during the ensuing year;
(f) such other supporting schedules as the council may deem necessary.

SECTION 9.04 – PUBLIC INSPECTION

A copy of the budget proposal shall be on file and available to the public in the office of the Clerk during office hours for a period of not less than one (1) week prior to the adoption of the budget by the council.

SECTION 9.05 – ADOPTION OF BUDGET; TAX LIMIT

Not later than the first meeting of the council in June, the council shall, by resolution, adopt all budgets for the next year and shall, in such resolution, make an appropriation of the money needed for municipal purposes during the ensuing fiscal year of the City and provide for a levy of the amount necessary to be raised by taxes upon real and personal property for municipal purposes subject to the limitations in Section 8.01 of the charter.

SECTION 9.06 – TRANSFER OF APPROPRIATIONS

After the budget has been adopted, no money shall be drawn from the treasury of the City nor shall any obligation for the expenditure of money be incurred, except pursuant to the budget appropriation. The council may transfer any unencumbered appropriation balance, or any portion thereof, from one department, fund, or agency to another, except that no moneys raised for the construction, improvement, and maintenance of streets or for the principal and interest on the funded debt of the City shall be used for any purpose except that for which they were raised. The balance in any appropriation, except moneys raised for the construction, improvement, and maintenance of streets or for the principal and interest on the funded debt of the City which has not been encumbered at the end of the fiscal year shall revert to the general fund and be re-appropriated during the next fiscal year.

SECTION 9.07 – BUDGET CONTROL

At the beginning of each quarterly period during the fiscal year, and more often if required by the council, the Treasurer, acting under the direction of the City Manager, shall submit to the council data showing the relation between the estimated and actual income and expenses to date; and , if it shall appear that the income is less than anticipated, the council may reduce appropriations, except amounts required for debt and interest charges, to such a degree as may be necessary to keep expenditures within the cash income.

City Manager's Budget Message

Date: May 16, 2022

To: Honorable Mayor, City Council and Citizens of Marshall

Subject: Transmittal of the **FY 2023 Proposed Budget**, Fiscal Year Ending June 30, 2023

Dear Mayor, Council Members and Citizens:

We are pleased to provide the proposed Fiscal Year (FY) 2023 Budget in accordance with the City Charter. This annual budget represents the preparation and collaboration of directors, their staff, City Administration and the Budget Finance Review Committee. This budget was challenging as we sought to identify new revenue sources and streamline expenditures in the General Fund as well as provide for equitable cost-sharing in the other funds.

Revenue and expenditures have been carefully reviewed to attempt to balance the General Fund budget. This budget uses \$169,633 of General Fund, fund balance. Of the \$169,633, \$100,000 is non-recurring and the remaining \$69,633 is recurring. Staff will continue to evaluate opportunities in FY 2023 to shrink the recurring deficit. There are currently no capital expenditures identified in the General Fund budget. Staff will bring capital items to Council as needed on a case-by-case basis during FY 2023. We anticipate that use of fund balance will be required for General Fund capital expenditures.

OVERVIEW OF CITY BUDGET

Listed below are some of the highlights of the FY 2023 Proposed Budget.

- The General Fund budget, exclusive of Recreation, Farmer's Market, and Airport activities, contained in this budget document is not balanced for recurring operations by \$69,633. Fund Balance Reserves are used for one-time expenditures of \$100,000 which is consistent with budgeting best practices of matching one-time revenues to one-time expenditures.
- The FY 2023 MRLEC Operations budget projects a \$98,000 use of fund reserves. Staff met with the County to discuss a rent increase for the Law Enforcement Center participants as costs are exceeding revenues. Both the County and the State are on different fiscal years so revenue will continue to lag behind expenditures until adjustments are made. The city receives a retroactive reimbursement for partners' shares of this facility.

- The Compost activity in the General Fund (101-523) is receiving \$30K of support from the increased Leaf, Brush and Compost millage fund.
- The American Rescue Plan Act and SAFER grant funds are new for FY 2023's budget. These funds will account for the proceeds and expenditures of the federal grants awarded to the City.
- The budgets for FY 2023 for the FiberNet Fund and the Electric Fund show a surplus as part of the deficit elimination plans presented to the State of Michigan.
- The FY 2023 Information Technology (formerly Data Processing) and Motor Pool funds show a planned use of fund balance reflecting additional technology needs and for the purchase of vehicles in the motor pool. Capital outlay in the Motor Pool (\$365,000) will provide for the replacement of seven units. The replacements include three mowers, one police patrol car, and one large and two small dump trucks for our DPW.

To enhance our management of the City fleet and to improve our funding mechanism for the Motor Pool Fund, a new financial model will be implemented that identifies the cost of replacement, overhead, maintenance/repair and fuel costs for each piece of equipment assigned and rented to each operational department in the City. This new model is being used in the FY 2023 and future budgets.

- The recommended staffing level for all funds is 87 FTEs. This is comparable to our current 2021/2022 fulltime staffing level.

Fund highlights are as follows:

GENERAL FUND

- The projected General Fund revenues (excluding Recreation, Farmer's Market, and Airport activities) for FY 2023 is slightly lower compared to FY 2022 budget primarily due to a change in the methodology of cost allocation to non-General Funds. The city hired a consultant to update the study in FY 2022 and have adopted the new methodology of calculating shared costs.
- The payroll line items in the various funds reflects wage increases for union personnel based on existing contracts and a 3% wage increase in FY 2023 for non-union personnel.
- The overall General Fund projected fund balance at the end of FY 2023 is \$3,271,069 or a decrease of 5.5% when compared to the estimated ending fund balance for FY 2022. This is primarily due to a non-recurring request for a financial consultant contract extension.

MOTOR VEHICLE HIGHWAY (MVH)
MAJOR & TRUNKLINE

MVH Major & Trunkline source of revenue is the State of Michigan Act 51 monies based on a formula taking into account population and the number of street miles categorized as major and trunkline streets (16 miles-Major and 4 miles of Trunkline). It is anticipated that for FY 2023, total expenditures will be \$356K and total revenues will be \$774K and the fund balance at year end for the Major Street Fund is estimated to be \$773,182.

The Major MVH fund will have limited work completed in FY 2023. This is to allow growth of the fund balance after the Mansion, East Drive, and the North Drive MDOT Small Urban projects were funded and completed in the summer of 2021.

MOTOR VEHICLE HIGHWAY (MVH) LOCAL

As with the MVH Major, the revenue source for this fund is the State of Michigan Act 51 monies based on the formula using population and the number of local street miles (25 miles). Projected revenues for FY 2023 total \$199K and expected expenditures total \$243K. It is anticipated that the FY 2023 ending fund balance for the Local Street Fund will be \$467,804.

The Local MVH fund and portions of the millage fund will be used in FY 2023 to fund the street construction portions of the Prospect Street Watermain and Street Improvements project.

Preventative maintenance activities such as crack filling are planned for both major and local streets.

MUNICIPAL STREET FUND

The Municipal Street Fund was created to account for the voted millage for street improvement as well as the bond proceeds related to street improvements. The FY 2023 expenditures are projected to be \$1.6 million using fund balance for FY 2023. It is anticipated that the FY 2023 ending fund balance for this fund will be \$886,659.

The end of FY 2023 will mark the beginning of the final construction season for the 2020 voter approved street millage. Under the millage, 3.28 miles of road are planned for milling and paving work during the upcoming construction season. The previous construction work resulted in 5 miles of road getting resurfaced under the street millage fund.

LEAF, BRUSH AND TRASH REMOVAL

The Leaf, Brush and Trash Removal Fund derives its revenue from a dedicated millage, approved and increased by the voters in August, 2020. The millage levy is anticipated to generate \$179K in revenues. The services provided are fall leaf collection, and spring brush pick-ups. The projected expenditures are \$145K. The goal for this Fund is to have a minimal Fund Balance at the end of each fiscal year.

MARSHALL HOUSE FUND

The Marshall House is a self-supporting operation that generates its revenues through Federal Section 8 Subsidy Payments and rents. For FY 2023, due to the anticipated sale, revenues and expenditures are projected to be \$80K reflecting staff time and the reimbursement of staff time. The fund is projected to have a net position of approximately \$2,059,387 at the end of FY 2022 which will be liquidated in FY23 after the sale.

FIBER TO THE PREMISE

The Fiber to the Premise (FTTP) is a utility approved by City Council in March 2017. The projected revenues for FY 2023 are \$1.3 million with expenditures projected at \$888K in accordance with the deficit elimination plan provided to the State of Michigan. The Fiber to the Premise fund is expected to have continued positive cash flow in FY 2023 due to a rate increase approved in March of 2021.

ELECTRIC FUND

The Electric Fund revenues for FY 2023 are projected to be \$19.4 million. FY 2023 expenditures including depreciation and amortization are estimated at \$16.7 million. This fund has provided a deficit elimination plan to the State which includes an approved rate increase as well as planned revenue growth in the Commercial section due to the marijuana industry.

DIAL-A-RIDE/AMC TRANSPORTATION FUND (DART)

The DART/AMC Fund FY 2023 budget is supported with \$204K of revenues from a millage levy, Federal and State funding of \$260K, and passenger fares of \$28K. Total FY 2023 revenues are estimated at \$523K. The FY 2023 projected expenditures are estimated at \$635K.

We are concerned about the ongoing ability to operate the DART/AMC program at its current level of service, as our operational expenses outpace the current level of federal and state funding. Additional work will be needed over the upcoming year to review operations and identify additional funding sources.

WASTEWATER FUND

The FY 2023 projected revenues are \$2.09 million. The FY 2023 projected expenditures of \$2.08 million include \$685K in capital outlay.

With the approval of the FY 2023 budget, the wastewater plant will see continued clarifier rehabilitation by duplicating recent efforts for the south clarifiers on the north clarifiers. The work will include inspection and integrity analysis of the structures and new mechanisms and bridges in the summer of 2023.

The purchase of a standby generator for Fountain Street Lift Station, the collection system's largest lift station, has also been included in the request.

Also included for funding in the FY 2023 budget is additional sewer main lining, the replacement of the sludge process grinder cutters, and an update to the department's master plan.

WATER FUND

The FY 2023 projected revenues are \$2.0 million. The FY 2023 projected expenditures are \$3.39 million due to the planned capital improvements of \$1.6 million.

This summer, 4,800 feet of watermain will be replaced on West Prospect Street in conjunction with the street improvement program. The replacement work will occur in two segments, Verona Road to N Linden Street and North Mulberry to North Eagle Street. In addition, 1,800 feet of watermain will be replaced on Industrial Road, (North Linden to Kalamazoo) and South Kalamazoo (RR tracks to Pearl Street). Both of these projects replace 1950/60 era cast iron watermain that have been subject to frequent breaks requiring emergency repairs.

To fund the operations and capital outlay in the wastewater and water funds to meet regulatory and health and safety requirements, rates will be increased by 1.5% for wastewater and 3% for water.

SOLID WASTE

The FY 2023 projected revenues are \$427K and projected expenditures \$372K. This fund is anticipated to have a net position of \$54,772 at the end of FY 2023.

BUDGET STRATEGIES

For the past several years, the City's budget has been balanced using multiple strategies for personnel/expenditure reductions, re-organizations centered on managing more efficiently with fewer resources, and higher than normal indirect

costs charged to other departments. The main goal is always to create a budget that is attainable and sustainable for the future.

This year was no exception, and in addition to the previous efforts identified above, we also carefully reviewed our existing fee structure and increased them where appropriate to cover our actual costs. As you review the revised fee schedule, you will notice that in most cases, we are suggesting a phased-in approach to the recommended fee increases.

CLOSING STATEMENT

The development of the City's proposed annual budget is a significant task for City Administration. This budget provides the fiscal framework required of a municipal operation to provide the services that our community expects, while at the same time being responsible about how those services are funded using the financial resources that are available. Staff will continue to investigate new and creative ways to improve our delivery of services to the community and create sustainability for our organization and the residents we serve.

Our team looks forward to working with you and our citizens through the adoption of the FY 2023 budget. I sincerely thank all the members of the staff and City Council for their hard work in preparation and consideration of this budget.

Respectfully submitted,

Derek N. Perry
City Manager

ADMINISTRATIVE REPORT

May 16, 2022 – CITY COUNCIL MEETING

TO: Honorable Mayor and City Council

FROM: Derek Perry, City Manager

SUBJECT: Budget Public Hearing & Resolution to Adopt City of Marshall Budget and Related Property Tax Millage Rates for Fiscal Year 2023.

BACKGROUND: The budget public hearing was scheduled by Council on May 2, 2022. Attached for your review and action is the resolution for the FY 2023 Budget that totals \$38,495,094 in expenditures and is in compliance with City Charter. This budget resolution reflects the proposed budget presented to you on April 4, 2022.

RECOMMENDATION: After hearing public comments, it is recommended that the Council adopt the attached resolution to approve the City of Marshall budget and related property tax millage rates for Fiscal Year 2023.

FISCAL EFFECTS: Establish budgetary amounts for the General Fund, Special Revenue funds, Debt Service Fund, Enterprise funds, and Internal Service funds in the amounts set forth in the attached resolution.

ALTERNATIVES: As suggested by City Council.

CITY GOAL CLASSIFICATION:

GOAL AREA 1 – ECONOMIC DEVELOPMENT

Goal Statement: Sustain and intensify the economic vitality of the Marshall area.

GOAL AREA 4 – INFRASTRUCTURE

Goal Statement: Preserve, rehabilitate, maintain and expand city infrastructure and assets.

Respectfully Submitted,

Derek Perry
City Manager

RESOLVED, That the City Council does hereby levy a tax of 17.1629 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023 on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same. This tax is levied for the purpose of defraying the general expense and liability of the City of Marshall and is levied pursuant to Section 8.01, Article 8 of the Charter of the City of Marshall.

The City Council does hereby levy a tax of .7480 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023, on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same. This tax is levied for the purpose of defraying the expense of operating the Leaf, Brush and Trash Removal Services of the City of Marshall as authorized by a vote of the citizens on August 4, 2020.

The City Council does hereby levy a tax of 2.0 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023, on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same. This tax is levied for the purpose of municipal street reconstruction for the City of Marshall as authorized by a vote of the citizens on November 3, 2020.

The City Council does hereby levy a tax of .9147 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023, on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same. This tax is levied to operate the Dial-A-Ride Transportation System in the City of Marshall as authorized by a vote of the citizens on August 5, 1975.

The City Council does hereby levy a tax of .9147 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023, on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same. This tax is levied for the purpose of defraying the expense of operating the Recreation Department of the City of Marshall as authorized by a vote of the citizens on April 4, 1959.

The City Council does hereby levy a tax of 1.5592 mills, subject to Headlee rollback, for the period of July 1, 2022, through June 30, 2023, on all taxable real and non-exempt personal property in the City of Marshall, according to the valuation of the same in a district known as the Downtown Development District. This tax is levied for the purpose of defraying the costs of the Downtown Development Authority.

	Proposed FY23 Rates	Actual FY22 Rates	Difference
General Operating	17.1629	17.1629	-
Leaf, Brush and Trash Removal Services	0.7480	0.7480	-
Recreation	0.9147	0.9147	-
Municipal Street Fund	2.0000	2.0000	-

RESOLVED, that the City Manager is authorized to make budgetary transfers within the appropriation centers established through this budget, and that all transfers between departments or funds may be made by the City Manager in an amount not to exceed \$20,000 per occurrence without prior Council approval pursuant to Section 19.2 of the provisions of the Michigan Uniform Accounting and Budgeting Act.

The City Council of the City of Marshall did give notice of the time and place when a public hearing on adoption of the budget would be held in accordance with Public Act 43 of 1963, proof of publication of the Notice of Public Hearing is now on file, and which Public Hearing was duly held pursuant to said notice and in conformity therewith. A copy of the budget proposal was on file with the City Clerk and on the City's website and available for public inspection at least one week prior to adoption of the budget; and

Further, the City Council of the City of Marshall did give notice of the time and place when a public hearing would be held in conformity with the provisions of Public Act 5 of 1982 authorizing a tax rate in excess of the present authorized tax rate for General Operating, Recreation, Municipal Streets, Leaf & Brush, Dial-A-Ride and Downtown Development Authority tax levies, proof of publication of Notice of Public Hearing is now on file, and which Public Hearing was duly held pursuant to said notice and in conformity therewith; and

This Resolution shall take effect July 1, 2022.

Dated: May 16, 2022

Trisha Nelson, City Clerk

I, Trisha Nelson, being duly sworn as the City Clerk for the City of Marshall, hereby certify that the foregoing is a true and complete copy of a Resolution adopted by the City Council, City of Marshall, County of Calhoun, State of Michigan, at a regular meeting held on May 16, 2022, and that said meeting was conducted and that the minutes of said meeting were kept and will be or have been made available.

Trisha Nelson, City Clerk

FUND BALANCE occurs when assets exceed liabilities. A positive fund balance means there are more assets than liabilities; a negative fund balance means just the opposite. Fund balance can be complicated by the fact that part of the fund balance is reserved and part unreserved. The difference between reserved and unreserved is that the unreserved can potentially be authorized for future expenditures while the reserved cannot. Additionally, the fund balance is a residual and not necessarily a cash amount.

NET POSITION represents the difference between all other elements in a statement of financial position and should be displayed in three components, net investment in capital assets, restricted and unrestricted. The Unrestricted component of net position is the net amount of the assets, deferred outflow of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

DEBT SUMMARY

Statutory and Constitutional Debt Provisions:

Section 21 of Article VII of the Michigan Constitution establishes the authority, subject to statutory and constitutional limitations, for municipalities to incur debt for public purposes.

The legislature shall provide by general laws for the incorporation of cities and villages. Such laws shall limit their rate of ad valorem property taxation for municipal purposes, and restrict the powers of cities and villages to borrow money and contract debts. Each city and village is granted power to levy other taxes for public purposes, subject to limitations and prohibitions provided by this constitution or by law.

In accordance with the foregoing authority granted to the State Legislature, the Home Rule Cities Act limits the amount of debt a city may have outstanding at any time. Section 4(a) of this Act provides: "...the net indebtedness incurred for all public purpose may be as much as but shall not exceed the greater of the following:

- (a) Ten percent of the assessed value of all real and personal property in the city.
- (b) Fifteen percent of the assessed value of all the real and personal property in the city if that portion of the total amount of indebtedness incurred which exceeds 10% is or has been used solely for the construction or renovation of hospital facilities."

There are also exceptions to the debt limitation permitted by the Home Rules Cities Act for other certain types of indebtedness (e.g., transportation and revenue bonds). The City of Marshall City Council adopted a Debt Management Policy (February 16, 2016, revised March 2021), intended to assure compliance with State Law and provide additional guidance as to the uses, decision making, debt planning and disclosure that the City should pursue relative to the City issuance of debt.

CITY COUNCIL

Article II of the City Charter dictates the composition, qualifications, terms, compensation, powers, and prohibitions of the City Council. The City Charter can be found at the City's website www.cityofmarshall.com/council.

The City Council is comprised of the Mayor and six Councilmembers. Five of the Councilmembers are nominated from their Ward and the sixth member is from At-Large. Councilmembers are elected for four-year terms. The Mayor is elected every two years. The current members of the City Council are:

- Mayor Joe Caron (term expires December 31, 2022)
- Councilmember At Large Ryan Traver (term expires December 31, 2024)
- Councilmember First Ward Scott Wolfersberger (term expires December 31, 2022)
- Councilmember Second Ward James Schwartz (term expires December 31, 2024)
- Councilmember Third Ward Jacob Gates (term expires December 31, 2022)
- Councilmember Fourth Ward Jen Rice (term expires December 31, 2024)
- Councilmember Fifth Ward Ryan Underhill (term expires December 31, 2022)

City Charter Section 2.04 states that the Mayor shall receive an annual salary of \$500 and the Councilmembers receive a \$300 annual salary. The Council's general powers and duties are described in the City Charter Section 2.05.

CITY MANAGER

Section 2.11 of the City Charter allows the appointment of a City Manager. Section 3.02 of the City Charter designates the City Manager as the Chief Administrative Officer of the City. The Manager is appointed by and responsible to the City Council for the administration of all affairs delegated to the Manager by the City Charter and Council. The Manager serves for indefinite term by a two-thirds vote of the entire Council. Derek N. Perry assumed the duties of City Manager on February 22, 2022.

The major responsibilities of the City Manager include:

- Providing recommendations to the City Council concerning policy making.
- Directs the four City Directors and two Chiefs to assure the policies of the City Council and the provisions of the City Charter are executed.
- Recommend and implement the goals established by the City Council.
- Implementation of the City budget and capital improvement program.

Currently, the City Manager is a member of the following Boards and Committees:

- Downtown Development Authority
- Local Development Finance Authority
- Northeast Neighborhood Improvement Authority
- South Neighborhood Improvement Authority
- Michigan South Central Power Agency
- Marshall Community Foundation
- Marshall Area Economic Development Alliance

The FY 2023 City Manager's budget includes the funding of a portion of the Director of Community Services position.

CITY CLERK

The City Clerk, in accordance with Section 2.10 of the Marshall City Charter, shall hold office by virtue of appointment by the City Manager. Trisha Nelson was appointed as City Clerk on December 3, 2012. The City Clerk's office is located on the second floor of City Hall and the hours of operation are Monday – Friday 8:00 a.m. to 5:00 p.m.

The Clerk's office participates in almost every aspect of communication for and by the City. This includes Council minutes, notice for Council public hearings and other various boards, administering oaths, ordinance review/codification, and signing of official bonds, contracts or agreements. The Clerk also acts as custodian of all official papers, documents and records pertaining to the City of Marshall.

The City Clerk oversees all elections held in the City of Marshall, working in coordination of the Calhoun County Clerk. Elections in Marshall are run with honesty and integrity and are in compliance with all federal, state, and local laws.

Chapel Building circa 1989

CHAPEL BUILDING

The Chapel Building is a beautiful, historic structure on Homer Road, at the entrance of Oakridge Cemetery. It served as the office for the cemetery for many years. In 1993, the building was remodeled to house the Utilities Director and Public Works Superintendent. In 2000, the Assessing Department relocated to the building when the Utilities Director moved to the new Public Services Building. In 2005, the building became vacant until 2013 when the Marshall Community Foundation and the Marshall United Way leased space to establish their offices in the building. They continue to occupy this unique structure. The budget has minimal expenses related to maintenance costs and the City's Facilities Manager oversees minor maintenance activities at the building.

OBJECTIVES:

Maintaining this historic structure is in line with the City's Vision by focusing on an improved Infrastructure. This will preserve, rehabilitate and expand the city infrastructure and assets. Also, it will ensure the building can remain occupied, and viable as a City asset for many years to come.

FUTURE BUDGET CHALLENGES:

Currently, the building is occupied by two area non-profit agencies. To ensure this facility remains in good condition to attract valued tenants, plans should be developed for a Sinking Fund to provide for future maintenance and security needs.

FINANCE - TREASURER

The Finance Department is responsible for all tax collection, cash receipting, utility billing, budgeting, payments, payroll, assessing, purchasing and all other financial transactions involving City funds.

TREASURER

The City Treasurer is appointed by the City Manager pursuant to Section 2.10 of the Marshall City Charter. The current City Treasurer, William Dopp, was appointed by council on April 4, 2016. The Treasurer serves as general accountant for the City and is responsible for all of the accounting, audit preparation, and the accounting of all fixed assets. Treasurer is also responsible for the cash receipting of all revenue of the City, depositing such funds, and reconciling all bank accounts.

The City Treasurer is responsible for creating the summer and winter tax rolls, printing and mailing tax bills, collection of all tax revenue, distribution of tax revenue to other taxing jurisdictions, and turning over to the County Treasurer all delinquent real property taxes for collection.

Council Goals: To assure accurate, fair and timely tax collections to support City operations and assure support for economic development activities.

PURCHASING

The purchasing function involves the procurement of materials, supplies, equipment, and services at the lowest possible cost consistent with the quality needed to meet the required standards. In an effort to create uniformity and cost savings, the City is continuing to reorganize from de-centralized purchasing to centralized purchasing. A purchasing policy has been developed based off of the City Ordinance and Charter to outline methods for executing purchases, define authority, and establish guidelines for the City. A purchasing webpage has been created to feature current proposals out for bid as well as a place for prospective vendors to register with the City.

Council Goals: To support City operations in providing quality goods and services in a timely manner at the most competitive prices. This effort will assure that the City will have the necessary material to support the Council's goals and activities.

ASSESSING DEPARTMENT

The Assessing Department is responsible for establishing assessed values of all taxable property for the equitable distribution of the property tax burden in accordance with Michigan's General Property Tax Act and various other applicable State statutes. The City currently contracts with Mr. Edward VanderVries, a level four assessor.

Duties:

To annually identify and inventory all property within the city and determine value based on the requirements of the General Property tax Act.

To annually provide the property owners of Marshall with fair and equitable assessments. Preparing and submitting the annual assessment roll to the State Tax Commission.

To accurately and timely process all property transfer information in compliance with applicable State laws.

To provide administrative oversight to the Land Division Ordinance and processing of all splits and combinations.

To process Special Act requests (Industrial Facilities Exemptions, Obsolete Property Rehabilitation, etc.)

To prepare the warrant for the collection of property taxes.

To coordinate and conduct Boards of Review in compliance with State law and City Charter.

NON-DEPARTMENTAL

Non-departmental expenses are expenses not tied to a specific department or program within the General Fund. Examples of non-departmental expenses are:

The City's membership fees for the Michigan Municipal League, (MML) and MML Defense Fund

Property and liability insurance for City Hall, various parks, and parking lots.

Retiree healthcare payments for employees whom have retired from General Fund Departments

Payments to Defined Benefit Pension Program for employees whom have retired from General Fund Departments

City Hall Clock Tower Face Repair and 1930 Seth Thomas custom made clock inner workings.

CITY HALL

Description of Services:

City Hall currently houses multiple city departments; City Administration, Treasurer, Assessing, Engineering, GIS, Finance, as well as the Marshall Area Economic Development Authority (MAEDA). This building is largely customer service related while also hosting the City Council Meetings, Planning and Zoning Meetings, City Meetings and Training and providing information for visitors to Marshall within the MAEDA Offices. General maintenance and operations are overseen by the Facility Manager with oversight of the Director of Public Safety.

Objectives:

City Hall, while primarily the center for management and customer service for the City, is an important historic structure within Marshall's Historic District. The district is considered one of the nation's largest architecturally significant National Historic Landmark Districts with over 850 buildings. Maintaining the historic nature of the building while providing modern day services can be a challenge and continues to align with the City's Visioning Goal for a vibrant community atmosphere and preservation of our infrastructure.

Future Budget Issues:

In the near future several building modernizations will be needed. These include security equipment upgrades, an emergency power generator, effective Council Chambers audio/video capabilities, and preservation actions to protect the historic Clock Tower.

CITY ATTORNEY

The City Attorney is recommended by the Mayor and approved by the Council. This appointment occurs in May following each regular City election by the City Council for a two-year term. This appointment is required by the City Charter Section 2.10 (b).

David Revore has served as the City Attorney since 2018. The City Attorney is assisted by other counsel for various items as needed. Labor attorneys are consulted on labor issues.

Legal fees which are related to a specific fund are charged to the appropriate fund. Legal costs will increase as more economic development occurs for the preparation of development agreements, reviewing professional service contracts and sale of City owned properties.

HUMAN RESOURCES

It is the mission of the Human Resources Department to service the overall personnel needs of the City by hiring and retaining qualified personnel to assist with the implementation of City Council's Strategic Goals. This includes administering personnel policies, ensuring the City is in compliance with State and Federal laws, marketing of vacant positions, approval for Family/Medical Leave, administering CDL compliance, and monitoring the employee benefits package.

The Human Resources Manager is responsible for most of the HR related duties. Labor negotiations, a large component of the human resources, are handled cooperatively by the City Manager and the Human Resources Manager.

Directors and Department Heads, with support from the Human Resources Manager, take a very active role in managing the day-to-day HR functions of their respective Departments. This team approach to personnel management works well.

The City offers its employees a solid benefit package including health, dental, optical, and life insurance, paid vacation, paid sick leave, twelve paid holidays, and a retirement plan through the Municipal Employees' Retirement System. Optional items include short and long-term disability insurance, additional life insurance, and a 457-investment plan. Depending on the employee's work responsibilities, full uniforms may be furnished.

POLICE DEPARTMENT

Mission Statement:

The Marshall Police Department, in cooperation with its community, is to provide professional service and to protect life and property for all citizens.

Highlights:

The Police Department is dedicated to continual improvement. We are fully accredited by the Michigan Association of Chiefs of Police (Michigan Law Enforcement Accreditation Committee). The police department is actively improving through increased professionalism, service, and public engagement. We continue and updating our strategic plan which will guide us into the future.

Future Budget Challenges:

Police work is very labor intensive, and as the community's expectations increase, labor will continue to be a lion's share of our police budget. This year's budget includes a Deputy Chief position and the addition of code enforcement and marijuana compliance to police operations. The addition of the Deputy Chief will help to address some administrative challenges we have faced with the elimination of the lieutenant and director positions over the last two years. The Deputy Chief will be responsible for overseeing the operations including code enforcement and marijuana compliance. The Deputy Chief will work closely with the Chief of Police and our police staff to finalize our strategic plan and set objective goals for the operations of our department.

Crime methods are ever changing as criminals continue to use technology to find innovative ways to exploit their victims. The police department continually assesses and improves our operations to keep up with technology innovations. We engage our community to seek community solutions to address crime, crime prevention, and to adjust police operations and training. We seek ways to utilize technology for the betterment of the community, including the use of traffic safety monitors to help establish evidence-based enforcement and traffic planning, video surveillance to assist with patrol operations and community safety, and the use of social media and community partnerships to better engage with the citizens we serve. The police department is dedicated to working with our citizens to make a safer Marshall community.

EMERGENCY DISPATCH COMMUNICATIONS

Contracted through

CALHOUN COUNTY CONSOLIDATED DISPATCH AUTHORITY

Since 2013, all 911, emergency and non-emergency public safety calls generated within the City of Marshall are answered, and dispatched by the Calhoun County Consolidated Dispatch Authority.

Before contracting with CCCDA, the City of Marshall was paying \$228,654 to operate their own dispatch center. In the first year, costs were reduced to \$106,880, based on 5828 calls for service. As of 2021, the fees were assessed at \$191,000 for 14,523 calls for service. This was the same as 2020. It should be noted that MAFFAA is billed another \$12,000 per year to CCCDA to cover hospital transfer calls they are dispatched to, generally from Oaklawn Hospital.

For 2021, this budget includes 10,205 events for the Marshall Police Department, 864 events for the Marshall Fire Department, and 2546 events for the Marshall Area Fire Fighters Ambulance Authority.

This budget also includes the fees associated with maintaining the City's Outdoor Warning Siren System and our Active 911 application, which is a mobile application for fire and emergency calls, which is used by our Fire Department, and other key City staff.

Future Budget Challenges:

A Countywide 911 surcharge proposal was put on the ballot in November of 2020 and failed to pass. Michael Armitage took over as the new dispatch director in 2021. A strategic plan has been completed and a number of goals have been outlined for dispatch including capital improvements to replace outdated equipment, to increase coverage area through tower updates, and to update the emergency system alerts. There is another plan to take proposal to the ballot in August of 2022 to cover the cost to improve tower infrastructure, radio equipment, and increase the level of dispatch services. The proposed funding model would use a cellphone surcharge fee, a .98 millage increase, and general fund contributions to improve the equipment and infrastructure of dispatch. Some cost saving may be seen if the millage is passed.

2020 Marshall Fire Department under the command of Fire Chief Martin W. Erskine

FIRE DEPARTMENT

Mission Statement: The mission of the Marshall Fire Department is to minimize the loss of life and property resulting from fires, medical emergencies, environmental and other disaster, natural or manmade.

Makeup: The Fire Department employs 8 full time firefighters, 3 full time firefighters funded by a Federal FEMA SAFER Grant and 10 (varies) paid on call firefighters. The department also has some auxiliary firefighters who commit their time to our organization. The department is responsible for providing the City with emergency medical response, rescue operations and firefighting coverage 24 hours a day, seven days a week.

In addition to response activity, your firefighters are committed to mitigating risks that could threaten our community. This is accomplished with fire prevention activities, commercial and industrial fire pre-plan visits, smoke detector installations, and building/site plan review.

Future Budget Challenges: Fire Apparatus and tools are complex equipment that endures harsh working conditions. Maintaining this equipment in top condition is always a budget challenge. The Fire Department has recently made the decision to start towards national accreditation, which will require a significant investment in time and employee dedication. The end goal of this process will be a department that has identified community risks, developed a comprehensive operations plan, prepared a budget designed to face its future challenges, and to respond to the expectations of their citizens. Another very real challenge we (and the fire service nationally) are facing is attracting and retaining well qualified paid on call firefighters.

Inspection

Mission Statement:

To build a safe, sustainable, and resilient building department within the City of Marshall, through the enforcement of all building codes and City ordinances.

Challenges Facing the Department:

The building department is always being challenged with improvement of service for compliance for building, electrical, plumbing, mechanical, and the enforcement of City Ordinances.

Changes in 2022-2023 Budget:

- The second phase of Michigan Pure Med/Common Citizen and residential building projects are underway and will provide a steady stream of permit revenue.
- Build out of Highway Horticulture and Bostik facilities for new licensed marijuana facilities is expected to be completed.

Emerging Issues:

- The marijuana ordinance continues keep the department busy and more inspections for all trades. The increase of permit revenue will help to maintain our current level of service.
- The unlicensed contractor has been an issue in all jurisdictions. If a home owner applies for the permits they are responsible to assure the code are met. Our department cannot help in any dispute between the owner and an unlicensed contractor. This is communicated with the homeowner when they are applying for a homeowner's permit.
- The Department needs to replace its mechanical/plumbing inspector.
- Contractors and/or homeowners are encouraged to have an on-site visit for questions. This helps to stop the issue of one side misinterpreting the other prior to beginning or during construction.

Operational Responsibility:

The building department has three major functions; building code, ordinance violations, and contractor registration of all trades.

323 W. Michigan Ave.

Marshall, MI 49068

p 269.781.5183

F 269.781.3835

cityofmarshall.com

Building Code:

- The department is responsible for making sure all the construction of commercial and residential codes are followed per the State of Michigan Building Codes. The department also oversees electrical, mechanical, and plumbing. These codes are on location for the public to view.
- The State of Michigan requires all inspectors to be certified through Act 54. This requires several training hours in different categories throughout each three-year cycle. These categories are in administration, specialty, technical, communications and plan review.

Contractor Registration:

- The State of Michigan requires that all building trades be licensed through state Act 230 and Act 407. The jurisdictions are responsible to assure that the contractors are licensed and insured per these acts. The contractor registration requires us to have a copy of their contractor's license, liability insurance, and workers compensation insurance on file.

Streets

Description of Services:

Many of the services that the Department of Public Works provides to the Citizens of Marshall are funded through the Streets budget. Department responsibilities include:

- general street maintenance
- maintenance of City right-of-ways
- forestry operations
- storm & sanitary sewer maintenance and repair
- street signage replacement and repair
- snow removal operations
- City owned parking lot maintenance
- downtown presentation to the public
- cemetery maintenance and repair

While a majority of the Department's work is funded through Streets portion of the General Fund, it is also supported through other funds and departments including the Cemetery Fund, Major Street Fund, Local Street Fund, Parks Fund, Leaf, Brush, and Trash Fund, and the Wastewater Department. Within the Major Streets fund the department works on the BL94 and M227 Michigan Department of Transportation trunklines which is funded by MDOT through the annual trunkline maintenance contract with the City. In addition to these responsibilities the Department of Public Works is often utilized for activities requiring general labor and for special event activities that occur throughout the year.

Objectives:

To meet our citizens expected level of service in the maintenance of the City's public works infrastructure including streets, curb and gutter, pavement markings, storm sewer, sanitary sewer, sidewalks, trees, and any other items within the road right-of-way. Weather related activities most predominately consist of ice treatment and snow removal during the winter and storm cleanup throughout the year.

Budget:

The Streets Department is a General Fund department which is funded through City tax revenue and State revenue sharing. The competition for these funds is tight and the Department Staff are cognizant of this fact. The major components of the Street budget are payroll and benefits, motor pool contribution, and utilities.

ENGINEERING

Description of Services:

In 1996, the City of Marshall established the Engineering Department to support the design, construction, and engineering for municipal operations and facilities. The primary responsibilities associated with this department include the preparation of plans, specifications, and field inspection of construction projects. The department is responsible for construction in water, wastewater, stormwater, and parks infrastructure. Other department responsibilities include review of utility construction permits, site plan and storm water review, and project management. In 2015 the Engineering Department staff was expanded to include a GIS specialist to assist with project management, construction inspections, and maintaining the city's GIS maps.

Objectives:

Annually the engineering department focuses on completing all construction projects as designed, specified, and on schedule. Longer term planning is also a focus which is where the asset management activities are instrumental. In partnership with the Water, Wastewater, and DPW departments the Engineering department is focused on steadily improving our GIS asset inventory and using it to streamline our asset management plans.

This department is aligned with the City's Vision by focusing on an improved Quality of Life and Infrastructure. The engineering department work directly promotes a vibrant community atmosphere by preserving, rehabilitating, and expanding the city's infrastructure and assets. This department is also integral in assisting with Economic Development which will sustain and intensify the economic vitality of the Marshall area.

Issues:

The Engineering Department is a General Fund Budget and with shrinking funding and increasing costs. It is a continual challenge to balance needs of short-term projects and long-term planning.

Compost

Description of Services:

The composting facility, located at 619 Homer Road, offers residents a way to dispose of yard waste while keeping organic recyclables out of landfills and fulfills the City's Vision by focusing on an improved quality of life.

A brief history of composting in Marshall is as follows:

- 2016: City of Marshall and Calhoun County decided to close the joint compost center on Division Drive.
- 2017: City opened a new Compost Site east of the DPW Building on Homer Rd. This site operates from April to November on Tuesday, Friday, and Saturday. Residents can drop of leaf and brush material with proof of residency.
- 2018: A payment system (punch card or seasonal pass) for the center was implemented to help offset the program expenses.

Objectives:

To provide a safe and effective method for the residents of Marshall to compost yard materials. The City maintains its membership in the Southwest Michigan Compost Group (SWMCG). The SWMCG members own, operate, and share a brush grinder and compost row turner. Processing of compost piles and chipping of brush are done by Public Works Department on an as needed basis.

Budget:

Historically, the Compost Center has been funded exclusively through the General Fund and the minimal revenue generated from the payment system implemented in 2018. With the passing of an increase Leaf, Brush, and Trash millage (.5 mills to .75 mills) the Leaf, Brush, and Trash fund will be contributing annually to the General Fund to support the Compost Center. The rationale for this is that the work done under the Leaf, Brush, and Trash work increases the work within the compost center. The brush and leaf picked up under this millage is composted along with the residential material in the center.

The Compost Center has several large annual costs with the largest being payroll to manage the material and the operation of the composting specific equipment. For example, the partnership with SWMCG is an annual cost of \$7,200 for the shared equipment. Now that the compost center is into its 5th year of operation the payroll amount has increased due the need to screen the material that has composted over these last 4-5 years. Furthermore, the work required in the Compost Center requires more expensive equipment like loaders, dump trucks, and chippers. City staff plan to look at the sale of the compost commercially to offset the increased cost over this fiscal year.

Cemetery

Description:

Originally developed in 1839, Oakridge Cemetery consists of 65 acres with four developed sections. Oakridge Cemetery has approximately 15,300 burials and is one of the oldest operating cemeteries in Michigan. The cemetery is linked to the Underground Railroad through the Crosswhite Family interred in the New Ground Section of the Cemetery. The Marshall Library has information regarding the Crosswhites.

Objectives:

Approximately 80 burials take place at Oakridge Cemetery each year. Interments take place Monday through Saturday. There are no burials on Sundays and some holidays. The seven members of the Department of Public Works are responsible for cemetery operation. Seasonal employees help with the daily mowing, trimming, and pruning required to keep Oakridge Cemetery beautiful. The City is dedicated to operating and maintaining Oakridge Cemetery at a level that reflects the community's pride in its historic cemetery.

Budget:

Fees were raised in 2017 to help offset operational costs but the Cemetery budget continues to be subsidized by the General Fund. Now that it has been 5 years from the last fee increase city staff are proposing increased fees for fiscal year 2023. If desired Expansion of the cemetery will need to begin in the next few years as the spaces available for purchase are dwindling. In 2018 a survey was completed of the land that the city owns east of the existing cemetery boundaries and additional capital, \$50,000 planned in the CIP, will be required in the near future.

PUBLIC SERVICES BUILDING OPERATIONS

The Public Services Building (PSB) opened in May of 2001. It houses the Recreation Department, Electric Utility Department, Dial-A-Ride, FiberNet Department and Building Inspections. The building has 9,000 square feet of office space, 20,000 square feet of vehicle storage area and 27,000 square feet of inventory and storage space. We are starting to see maintenance issues with different building components as we come to the end of the useful life for these items. Staff is monitoring the condition of the building and will continue planning for necessary upgrades in future years.

PLANNING & ZONING

The Planning & Zoning department receives site plans, special land use requests, zoning amendment requests, and variance requests. Staff works with the Planning Commission, Joint Planning Commission and Zoning Board of Appeals to bring these matters to resolution under the guidelines set forth in the Michigan Planning Enabling Act of 2008 and the Michigan Zoning Enabling Act of 2006. The Planning Commission and City staff also work together to update the City's Master Plan, Zoning Ordinance and Sign Ordinance. The department consists of the Planning and Zoning Administrator. The office is located at City Hall at 323 W. Michigan Avenue.

Public communication is essential for planning purposes. On a daily basis, phone calls are taken from residents, representatives of businesses, and design professionals. Public hearings are held on ordinance changes and updates, zoning amendments, variances and for many other reasons. The Planning & Zoning department also maintains an "open door" policy for residents who desire to look at plans, ask questions, or participate in future planning events. These hearings, policies and initiatives are often time intensive for staff and require the use of written materials, mailings, marketing efforts and a multitude of various office supplies to properly communicate and engage the public.

Parks

Description of Services:

The City of Marshall is fortunate to have eight designated park properties and a number of open spaces encompassing approximately 233 acres available to the public. Responsibility for the maintenance and planning for the parks has shifted to the Recreation Department. This includes the parks and their amenities which include restrooms, playground equipment, ball fields, picnic tables, picnic pavilions and a community band amphitheater. In addition to green space, the City also maintains 1½ miles of boardwalk, paved paths, and look-out areas along the Kalamazoo River. The following list provides a name and description to the eight city parks.

- Brooks Memorial Fountain Park: Located at the heart of town, this park is home to Marshall iconic fountain.
- Brooks Nature Area: 180 acres located southeast of town with trails, wetlands, wooded forests, and prairie grass.
- Ketchum Park: A diverse 25 acres consisting of trails, playgrounds, and pavillons just east of downtown along Rice Creek.
- Stuarts Landing: Adjacent to the Kalamazoo river with access to the riverwalk on the southeast side of town.
- Carver Park: Located at the corner of Exchange Street and Michigan Avenue and host to a small, recently rehabilitate fountain, and sitting areas.
- Marshall Athletic Fields: The heart of Marshall's outdoor recreation located along BL-94 and hosts to large baseball and softball tournaments throughout the year.
- Shearman Park: Home to a pavilion, playground, and winter ice skating rink on the northwest side of downtown.
- Grand Street Park: Located at the corner of North Grand Street and Michigan Ave, Grand Street Park was born out of a devastating building fire. Through tireless work and many donations the park was dedicated in 2017.

Objectives:

The City strives to establish and maintain parks that enhance the lives of its citizens. Providing a variety of park types and locations allows for proximity to all residents and activities everyone can enjoy. The Citizens of Marshall, through various clubs, associations, and groups, along with support from City Employees, work as a team to maintain and improve Marshall's park system.

Sherman Park, the only park in the northwest section of the city, is a testament to that cooperation. In an effort recognized with an award by the American Public Works Association, employees of the Street Department erected a beautiful pavilion in the park, saving the city thousands of dollars in contractor costs.

The Ketchum Park Committee has started planning on the next phase of 20 year master plan transformation of Ketchum Park. The next phase is projected to be the development of the Great Lawn which will sit east of the Cronin Millrace Pavilion and north of Kids Kingdom playground. Additional planning on future acquisitions and access to the east end of the park are also underway.

Challenges:

The parks budget will need an infusion of cash and labor availability to meet the challenges of maintaining a growing and aging park system. The Riverwalk is in desperate need of maintenance plans and funding. The City plans to look at implementing a maintenance fund which would require a portion of all park donations be dedicated to future maintenance.

Issues/Changes in 2022-2023 Budget:

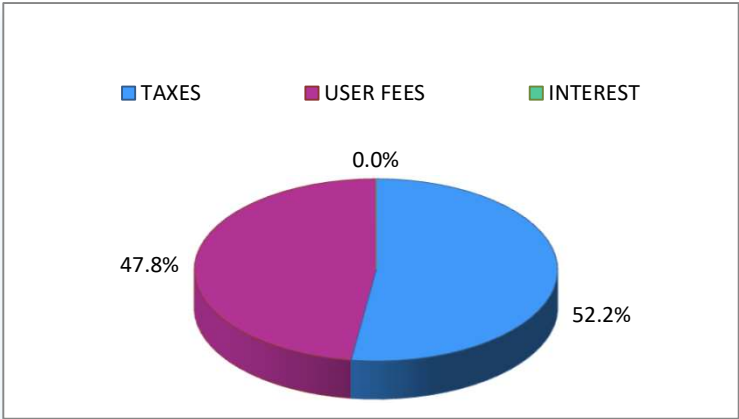

- The City is using revenue received from the County Parks millage to start repairs on the Riverwalk.
- A committee of staff and community members has started work on the development of a new park on land donated from Eaton at the corner of Hanover and Fountain Streets.
- Continued transition towards the combination of Parks and Recreation activities under the Recreation Superintendent.

FARMERS MARKET

Description of Services:

Since 2002, the Marshall Area Farmer's Market has operated in Marshall's downtown area bringing fresh fruits and vegetables, meat and poultry, baked goods, plants and flowers, and more to Marshall's citizens and visitors. Management of the Farmer's Market is overseen by an advisory board and a contractual Market Manager. The Public Services Director is the designated liaison to assist the Farmer's Market if needed.

Objectives:

The market is committed to support of Michigan based local farmers, growers, artisans and producers who also support sustainable economies and environmental practices while providing employment and income to our citizens.

Measures:

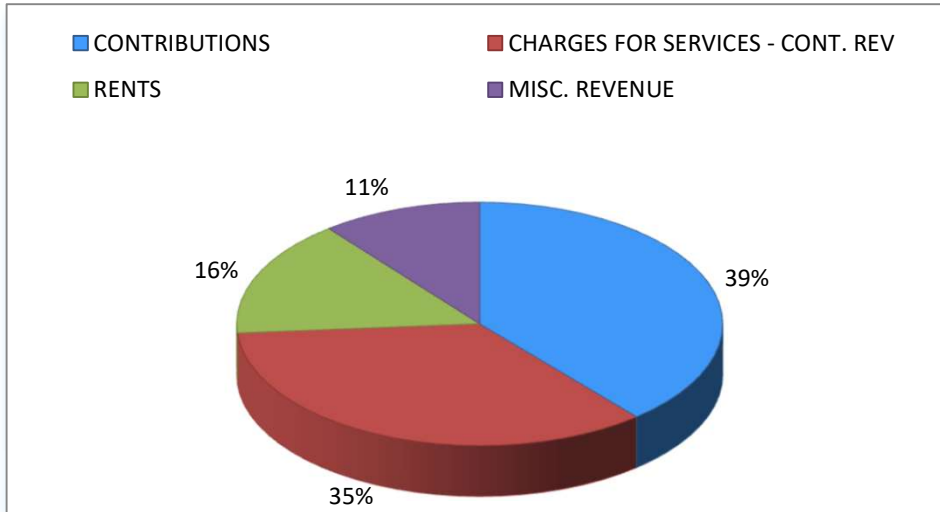

The market remains flexible and open to innovations to maintain and increase the numbers of patrons and vendors, as well as, expanding the available wares. In 2016 the Market instituted the SNAP program allowing patrons with Bridge Cards access to the market's wares.

Budget:

The Farmer's Market board is focused on fundraising to help offset the deficit expected for fiscal year 2022. The manager and board members are creating unique sponsorship activities for local business and supporters. Increased vendor fees were approved for the calendar year 2022 season which will help offset more expenses.

BROOKS AIRPORT

Description of Services:

Brooks Field is an uncontrolled airfield owned and operated by the City of Marshall. The Federal Aviation Administration has designated Brooks Field as a Tier II airport considered to be essential/critical to the statewide system and respond to local community needs. Brooks Field can support Medium turboprops and business jets on the 3500 x 75 feet runway. The airport also houses a Helipad, public and private hangers. The airport also offers two types of self-service fuels, 100LL and 94 Octane Swift ethanol free, at very competitive prices which are available 24 hours a day 7 days a week.

Brooks Field has 30 aircraft based at the airport and on average will see approximately 8,200 operations per year. It is managed by the Director of Community Services, part-time Airport Manager, a five-member Airport Advisory Board, and the City Council.

Objectives:

Brooks Field's basic objective is to fulfill the City's Visioning Goal by focusing on an improved Quality of Life and Infrastructure. Additionally, as part of the Michigan Aviation System Plan, it is our goal to align with the multiple system goals as set forth by the Michigan Department of Transportation – Aeronautics Division. These goals include measures relating to facility and pavement maintenance.

Brook's Field is included in the National Plan of Integrated Airport Systems (NPIAS) and receives FAA funding through an Airport Improvement Plan (AIP). These grant assurances help keep the airport viable and preserve the investments made at the airport from the Federal and State levels.

The 2017 Airport Report Card showed Brooks Field to be satisfactorily meeting all applicable facility goals and reaching a Pavement Condition Index (PCI) for the Runway and Taxiway of 86 and 93, respectfully, well above the PCI minimums of 55 and 45.

Issues:

A new Terminal Building was constructed in 2021 with funding primarily from FAA funds, the City is responsible for funding approximately 5% of the project and took a loan from MDOT of \$100,000 as well as additional support from the General Fund to complete the project. This loan and a portion of the City's excess support will be reimbursed in this current year.

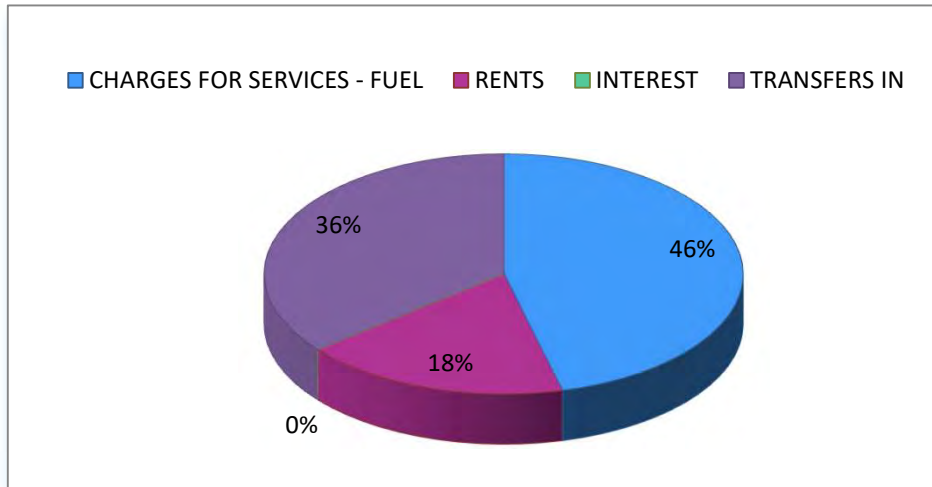

The airport is projected to receive an additional \$159,000 per year for the next 5 years from the federal Infrastructure bill. Planning for the use of these funds is underway.

The airport revenue budget is heavily subsidized by the City's General Fund with a small profit from fuel sales and hanger rentals. Recent budget reductions and revenue losses have made the funding of non-FAA funded projects more difficult to complete. These generally include projects such as hanger structure maintenance and fuel pumping system repairs and upgrades.

MAJOR STREET -- MVH

Description of Services:

The Major Street (MVH) Fund was established for the Act 51 funds giving to municipalities for various street expenditures including maintenance and preventative maintenance. Services performed with these funds include work on the City's designated Major Street system as designated by MDOT. Major streets are those considered to be of greatest importance by providing an integral network to the industrial, business, and collecting traffic between the local network and County and State systems. The City of Marshall currently has 14.38 centerline major street miles.

Objectives:

Public Act (PA) 51, 1951, Gas Tax, was established to provide funding for Michigan Roadways. Gas Tax funds are required to cover costs for all street right-of-way maintenance; this includes but is not limited to snow plowing, traffic signage, pavement markings, traffic signal power/maintenance, ADA sidewalk ramps upgrades, bridge maintenance, etc. PA 51 also requires that 10% of these funds be spent on the non-motorized system such as sidewalks over a 10-year period. This requirement is easily met with the sidewalk ADA ramp upgrades required by the Federal Highway Administration (FHWA) during street construction projects.

Assessment:

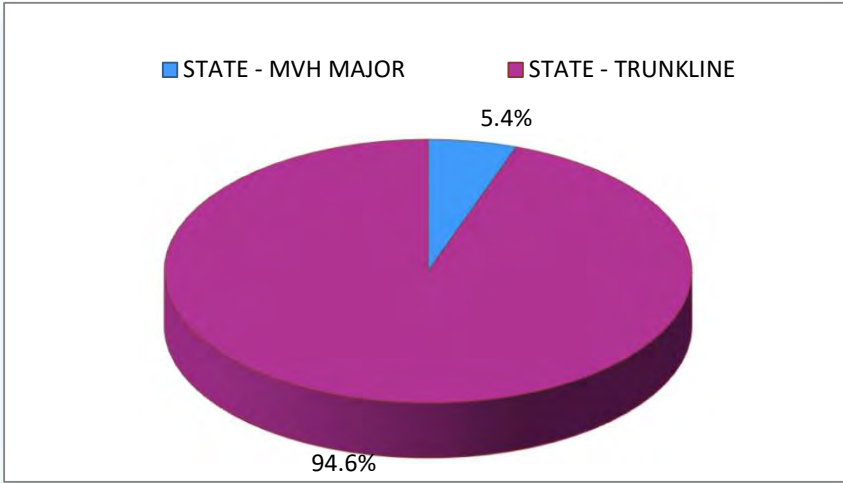

The City of Marshall's road system has been rated utilizing the Pavement Surface Evaluation and Rating system (PASER) since 2005. This rating system is utilized by virtually every state road agency allowing for uniformity in comparing conditions of the street system statewide. All the City of Marshall streets are rated using the PASER rating system at least bi-annually. The information is then placed in the RoadSoft integrated roadway management system developed and provided by Michigan's Local Technical Assistance Program (LTAP). This powerful tool allows for tracking of system's deterioration as well as assisting in selection of maintenance project to improve the overall system condition.

Budget:

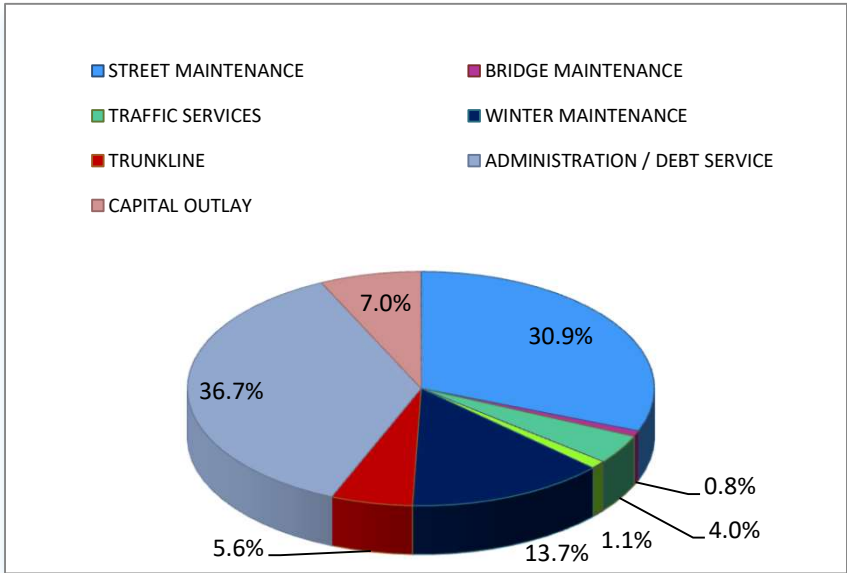

Even with the recent "gas tax" increases and additional funding, only a small portion of those makes it to the municipal levels. Major Street receive more funds per mile than local streets and are eligible for many different grants. Generally, these Major Street tend to be in better condition than local streets.

New for fiscal year 2022 will be the implementation of a street improvement millage that will contribute major funds to the rehabilitation of Marshall's Streets. Millage funds will be held in a separate fund, but the influx of these funds will allow City staff to focus the Major Streets funds on preventative and capital maintenance.

TOTAL EXPENDITURES	\$ 356,162	100%

LOCAL STREET -- MVH

Description of Services:

The Local Street (MVH) Fund was established for the Act 51 funds given to municipalities for various street expenditures including maintenance and preventative maintenance. Services performed with these funds include work on the City's designated Major Street system as designated by MDOT. Local streets are those outside the Major and County/State Systems, generally the neighborhood street system. The City of Marshall has 25.76 centerline miles of local streets.

Objectives:

Public Act (PA) 51, 1951, Gas Tax, was established to provide funding for Michigan Roadways. Gas Tax funds are required to cover costs for all street right-of-way maintenance; this includes but is not limited to snow plowing, traffic signage, pavement markings, traffic signal power/maintenance, ADA sidewalk ramps upgrades, bridge maintenance, etc.

Assessment:

The City of Marshall's road system has been rated utilizing the Pavement Surface Evaluation and Rating system (PASER) since 2005. This rating system is utilized by virtually every state road agency allowing for uniformity in comparing conditions of the street system statewide. All the City of Marshall streets are rated using the PASER rating system at least bi-annually. The information is then placed in the RoadSoft integrated roadway management system developed and provided by Michigan's Local Technical Assistance Program (LTAP). This powerful tool allows for tracking of system's deterioration as well as assisting in selection of maintenance project to improve the overall system condition.

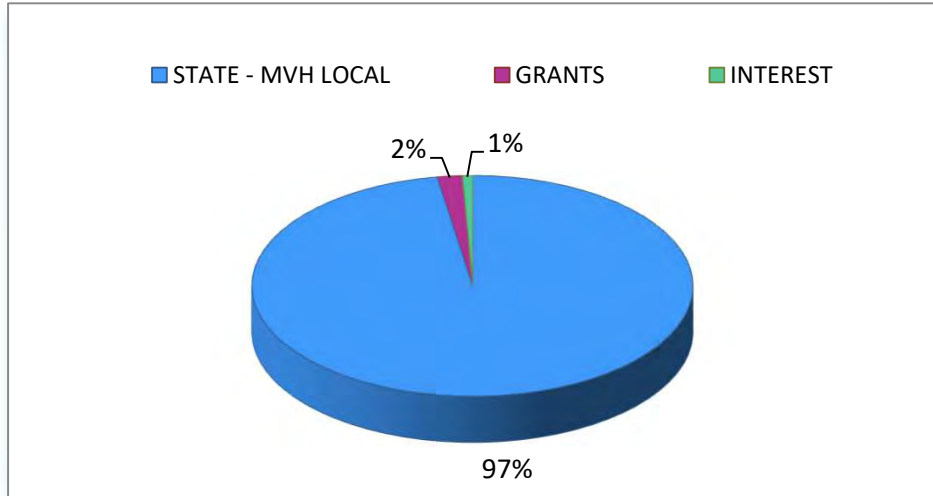

Budget:

Even with the recent "gas tax" increases and additional funding, only a small portion of those makes it to the municipal levels. Local Streets receive far less funds per mile than the major street system. Marshall does not currently have a local street millage severely limiting funds available for maintenance activates after other work is completed.

New for fiscal year 2022 will be the implementation of a street improvement millage that will contribute major funds to the rehabilitation of Marshall's Streets. Millage funds will be held in a separate fund, but the influx of these funds will allow City staff to focus the Local Streets funds on preventative and capital maintenance.

Street Millage

Description of Services:

The 2022 fiscal year will be the first full year implementation for the street millage fund. This fund, established with the voter approved street improvement bond in November in 2020, is a \$4.75 million bond proposal with strict goal of improving the City of Marshall's streets and ancillary right-of-way area. The millage passed by a 600-vote margin with 2,126 yes votes and 1,542 no votes.

Objectives:

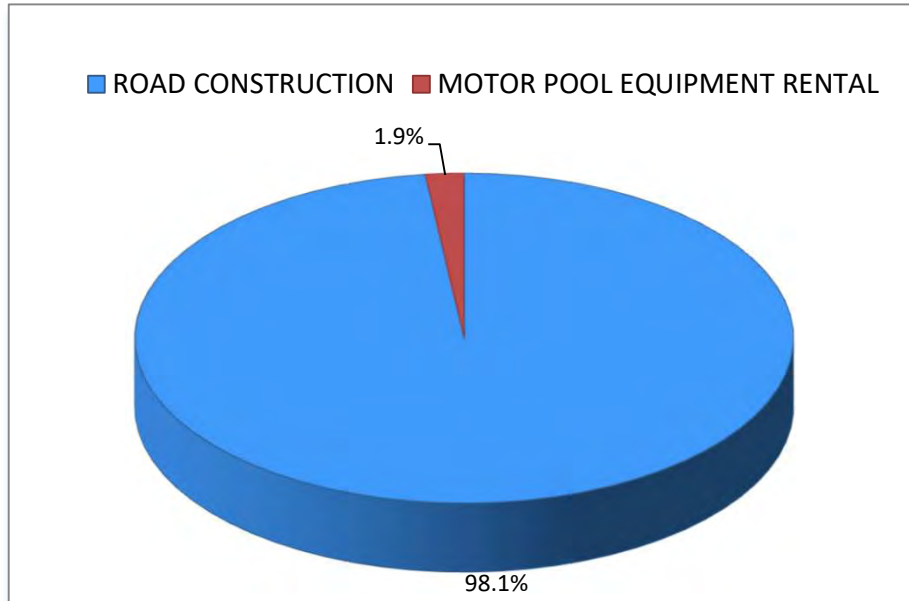

City staff plan to execute construction from spring of 2021 to spring of 2024 to rehabilitate 17-miles of streets throughout the City. A majority of the improvements planned are mill and resurface work where a specific depth of road will be milled and new asphalt pavement will be applied over the existing base material. Sidewalk improvements, minor drainage improvements, and other minor work within the right-of-way are all planned along the improved streets.

Budget:

Due to the bond sale timing, the revenue from the sale (\$4,750,000) will be realized in fiscal year 2021. Revenue from the property taxes will be realized starting in fiscal year 2022 at approximately \$600,000 annually. Expenses for fiscal year 2022 are \$2.4 million which will leave a fund balance of \$2.2 million for construction and expenses in fiscal year 2023. The first construction contract was approximately \$1,000,000 for 5 miles of mill and pave in 2022. For summer of 2023, two watermain projects are planned that will utilize street millage funds and three miles of mill and pave is planned.

FY 2023 MUNICIPAL STREET EXPENDITURES

Marshall Regional Law Enforcement Center

The Marshall Regional Law Enforcement Center (MRLEC) is a collaborative between the City of Marshall, Calhoun County and the State of Michigan. The center houses all three governments' law enforcement agencies, impacting about 100 police officers and support staff. The facility is also used by many other regional law enforcement agencies as part of their collaboration with MRLEC agencies. This ranges from 20 to 30 additional officers. The building can also (post-pandemic) host a variety of civic groups who have utilized our Community Training Room for meetings and functions in the past.

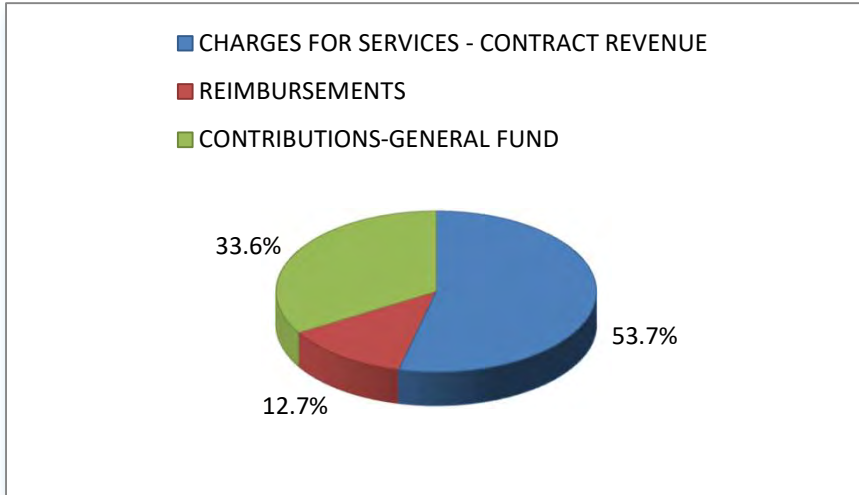

The City of Marshall has ownership of the MRLEC and the State of Michigan and the Calhoun County Sheriff's Office lease the space from the City, as well as provide for some limited support services. There are funds built into the leases that are designated for continued building upkeep now and into the future.

Future Budget Challenges:

The building is now seven years old and we are starting to see an increase in maintenance and replacements costs. Growing security concerns and technology updates are priorities for the budget. Major budget items include camera replacements along with camera system and security system updates. We are working also closely with our agency partners to identify operational needs for the building and to put together plans for building updates in the future which include parking lot expansion and vehicle evidence storage expansion. The additional costs for these updates and expansions will increase the budget over the next few years. We will continue to meet and discuss these plans and to increase rents to re-adjust the original cost sharing formula to pay for these updates and keep the budget balanced.

Brush, Leaf, and Trash Pickup

Description of Services:

- Brush: Every April the Department of Public Works (DPW) conducts a city-wide brush pickup so that citizens can dispose of brush that has accumulated over the long winter season. Citizens place brush next to the curb and crews make one pass thru the city chipping the brush and hauling it away.
- Bulk Trash: May is the month for the very popular city-wide trash pickup that conveniently follows the announced city-wide rummage sale. This gives residents a chance to dispose of household items that did not find a buyer.
- Leaf: Leaf pickup begins around the middle of October and goes through Thanksgiving and into early December.

Objectives:

The DPW strives to provide citizens of Marshall service that meets their expectations as this fund is supported through a voter-approved millage. Efficient pickup and disposal of brush, leaves, and trash help our residents keep our city looking clean and welcoming. This program helps support the City's Vision by focusing on an improved quality of life.

Budget:

This budget receives revenue from a voted Leaf, Brush, and Trash millage. This millage was renewed in 2016 and increased to .75 mils in 2020. The increased .25 mil was approved to keep the services going and support the Compost Center that is directly impacted by the material generated from these curbside services to our citizens.

The single day bulk trash pickup event was a success in 2021 and that is expected to continue in 2022. Without any unexpected changes staff plan to continue the single day event for the coming years.

In fiscal year 2021, the DPW staff received and operated new grapple system on the loader to conduct the pickup. The ancillary equipment included a tool cat to push the leaves off the curb and staff with backpack blowers. Both pieces of equipment were effective after the initial kinks were worked out. The leaf pickup for fiscal year 2022 was completed from early November to late December. The length of leaf pick up for fiscal year 2022 was affected greatly by unseasonably warm weather.

NORTHEAST NEIGHBORHOOD IMPROVEMENT AUTHORITY

The Neighborhood Improvement Authority (NIA) was created on April 15, 2019. The NIA is established as a Tax Increment Financing Authority by PA 57 of 2018 to support residential development.

The current Board consists of the following members:

Scott Wolfersberger, Chairperson
Greg Beeg
Lucy Blair
Matt Davis
David DeGraw
Krista Trout-Edwards
Derek Perry

The NIA receives its revenue by capturing tax revenue from the City, Kellogg Community College, and Calhoun County millages through the incremental increase in taxable values within the NIA District over the 2018 base year's taxable value

Issues/Changes in 2022-2023 Budget:

- The Eastside Redevelopment project (formerly State Farm/Golden Rule property) is still in the planning stages as city staff work with the Land Bank and other stakeholders to move the project forward.
- The City and Marshall Area Economic Development Alliance (MAEDA) are partnering to develop a marketing strategy to highlight the development opportunities that exist in Marshall and the tools that exist to assist in the development. A few of these sites are in the Northeast NIA district which may result in additional development and an increased in both revenues and expenditures in the coming years.

DOWNTOWN DEVELOPMENT AUTHORITY

The Downtown Development Authority (DDA) was established in 1982 as a Tax Increment Financing Authority for the purpose of maintaining a viable Central Business District.

The current Board consists of the following members:

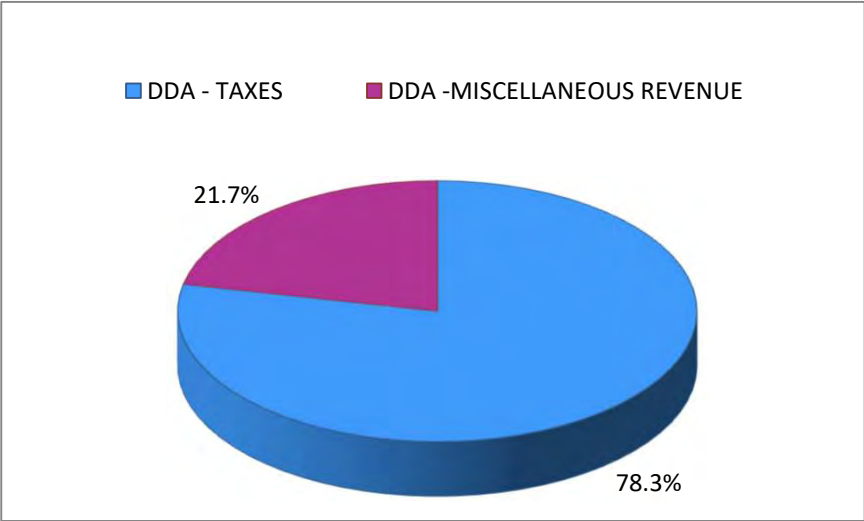

- Michael Beck, Chairperson
- Sue Damron, Vice Chairperson
- J.P. Walters
- Jason LaForge
- Matt Davis
- Desmond Kirkland
- Richard Lindsey
- Catherine Yates
- Tommy Miller
- Derek Perry
- Rebecca Jones

The DDA receives its revenue through the increase in equalized value within the DDA district that are above the base-value determined on December 31, 1982. In addition, the DDA will levy 1.5981 mills on all property within the District to support its operations.

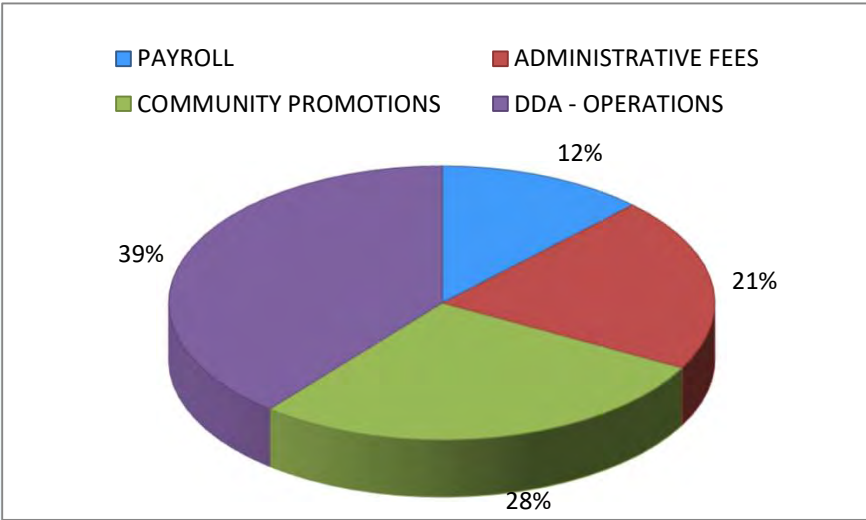

The DDA performs snow removal from the sidewalks within the District. The DDA also uses City crews to remove rubbish from the downtown trash containers and maintains the parking structure with pavement wash downs and snow removal.

The proposed FY 2023 DDA budget highlights include \$54,000 of revenue and \$35,000 of expenditures for the Blue's Fest. The DDA is debt free after paying off a 2002 Capital Improvement bond. These and other allocations of the DDA are directly related to City Council's goal of creating and maintaining a "Vibrant Downtown".

LOCAL DEVELOPMENT FINANCING AUTHORITY

The Local Development Financing Authority (LDFA) was created on November 19, 1991. The LDFA is established as a Tax Increment Financing Authority by PA 281 of 1986 to support economic development.

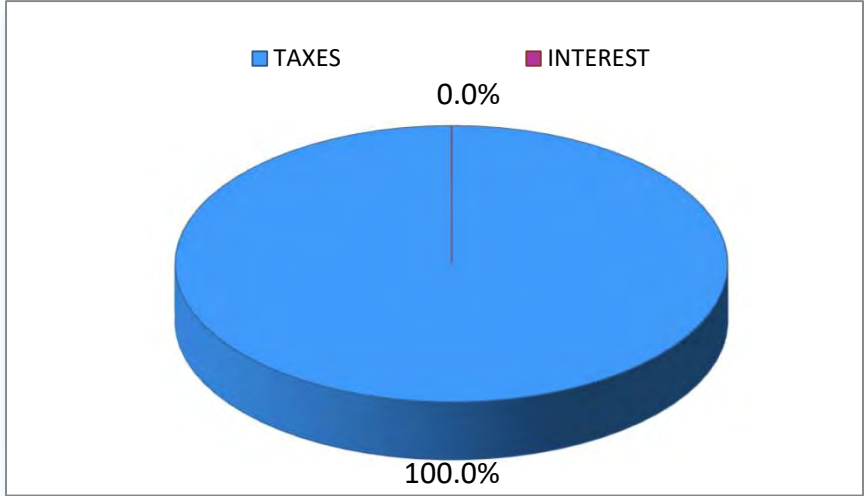

The current Board consists of the following members:

- Michael Beck, Chairperson
- Sue Damron, Vice Chairperson
- J.P. Walters
- Jason LaForge
- Matt Davis
- Catherine Yates
- Desmond Kirkland
- Richard Lindsey
- Tommy Miller
- Derek Perry
- Rebecca Jones

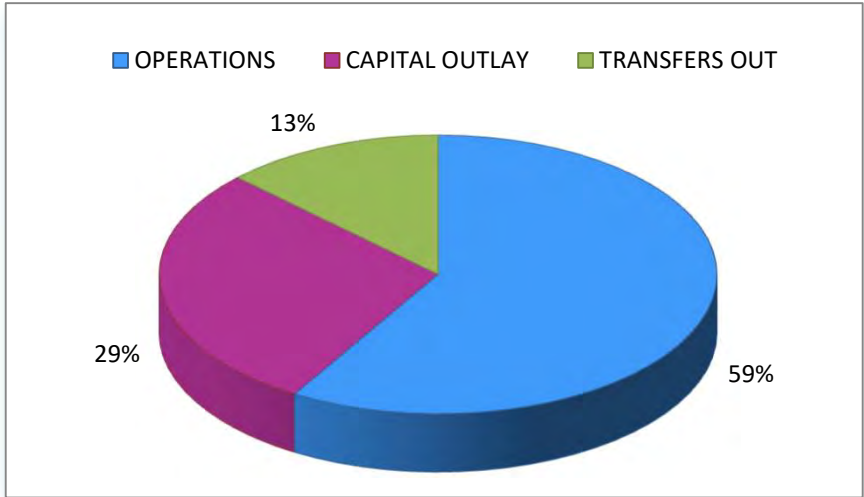

The LDFA receives its revenue through the increase in equalized values within the LDFA District over the base value determined in December 31, 1990. The LDFA is starting to see the benefit of the marijuana ordinances as the MPM and Cresco facilities are operational, with the Bostik facility expected to open in 2022-2023.

The LDFA is in the process of issuing bonds for the construction of the new \$6 million Brooks Electric Substation.

SOUTH NEIGHBORHOOD IMPROVEMENT AUTHORITY

The Neighborhood Improvement Authority (NIA) was created on February 18, 2020. The NIA is established as a Tax Increment Financing Authority by PA 57 of 2018 to support residential development.

The current Board consists of the following members:

Matt Davis, Chairperson
Lucy Blair
Ben Holben
Sean Lefere
Michael Murphy
Derek Perry
Ryan Underhill

The NIA receives its revenue by capturing tax revenue from the City, Kellogg Community College, and Calhoun County millages through the incremental increase in taxable values within the NIA District over the 2019 base year's taxable value.

The proposed FY 2022 NIA budget includes \$25,667 of estimated revenue and \$24,544 of possible expenditures. The only anticipated expense is debt service related to the General Obligation bond issued by the City for construction of the infrastructure for lots on Rebecca and Oak.

Issues/Changes in 2022-2023 Budget:

- Redevelopment of Alwyn Downs Golf Course has begun with the construction starting on nineteen (19) lots in 2021. The developer anticipates sharing plans for the construction of the remaining 200+ lots over the next decade.
- The developer will provide approximately \$19,000 to cover debt service on the 2021 GO Bond. Reimbursement of this amount is anticipated later this decade as revenues from the new houses are received through capture of the City, KCC, and County millages.

Marshall House Apartments

Owned & Operated by City of Marshall

BUDGET NARRATIVE FY 2022-2023

SUMMARY:

Marshall House Apartments is a 100-unit senior and disabled citizen housing community that opened January 1980 and is owned and operated by the City of Marshall. It was established for low-income seniors and disabled adults, with the rent based on approximately 30% of the household's adjusted annual income (total annual income minus allowable medical deductions). Tenant rents are subsidized by Section 8 New Construction, Department of Housing and Urban Development (HUD) funding.

OBJECTIVE:

Comfort and safety are an important goal at the Marshall House. Management strives to provide all with a clean, healthy and safe place to live, all the while trying to maintain a healthy and responsible budget.

CURRENT GOALS

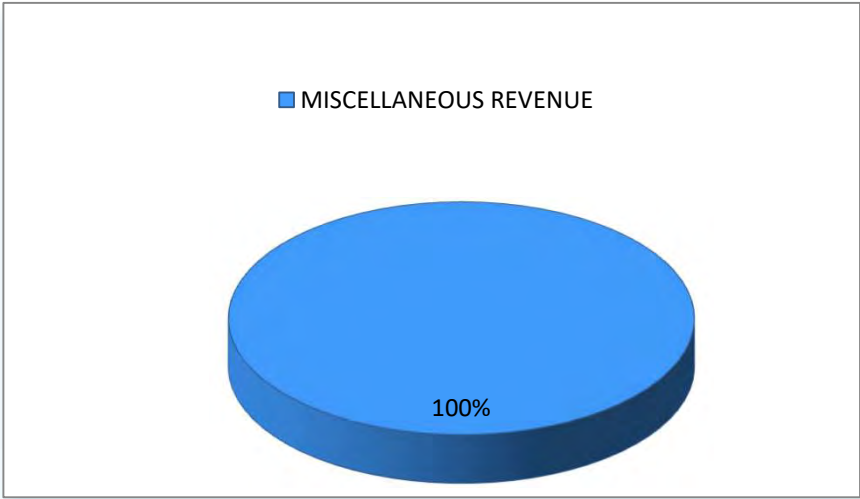

The City is in the process of selling Marshall House to Integra Property LLC with the deal expected to close in the 2021-2022 Fiscal Year. The Marshall House fund need to exist for the 2022-2023 Fiscal Year to account for staff transition and disposition of fund balances and liabilities. The 2022-2023 Fiscal Year is expected to be the final year of the fund.

Fiber to the Premise

The mission of the City of Marshall's Fiber Department is to provide ultra-high speed (up to 10Gbps) symmetrical internet service to city residents and businesses in a cost effective and reliable manner with superior customer service.

In 2015 the Marshall City Council identified providing Fiber-To-The-Premise (FTTP) ultra-high speed internet availability to residences and businesses as an objective that is contained in all four (4) of the major goals of its strategic plan. The FTTP system was completed in late 2018 and ultra-high speed internet service is now available to all city residents and businesses.

On March 20, 2017, City Council approved the FTTP project and the acquisition of the services of a fiber optic network consultant to engineer and design a fiber network that would provide a 10Gbps access to an Active Ethernet symmetrical FTTP system for all 3810 residences and businesses within the city. The installation of the network would be completed within two (2) years.

The construction of the fiber system was completed by year end 2018 at a cost of \$4.2 million with 270 total customers connected in 2018; a total of 1025 customers taking service in 2019; 1414 customers taking service from the fiber system by June 30, 2020 and 1570 customers by June 30, 2021 generating \$1, of annual revenue, almost 1700 customers by June 30, 2022 with revenue of \$1,203,000. Revenue for the 2022/23 fiscal year is expected to be \$1,283,010.

The fiscal year 2022/23 requested budget for the Fiber Department is \$888,542 compared to a \$998,492 budget in 2021/22. The positive cash flow is mainly attributable to a 10% rate increase for Tier 1 and 2 residential and decreased expenses in its contracted support contract.

Electric Fund

The mission of the City of Marshall Electric Department is to provide safe, reliable and competitively-priced electric service tailored to the unique needs of our community.

The Marshall Municipal Electric Department was established in 1892 with the City's acquisition of the privately-owned Kalamazoo River Perrin mill site on South Marshall Avenue. Here, the City constructed a hydroelectric generating facility that still serves the community today.

Electric Department fulltime staffing currently consists of a Director of Electric Utilities; a Lead Lineman; five (5) Journeyman Lineworkers; two (2) Apprentice Lineworkers; a Power Plant Lead Operator; three (3) Power Plant Operators; and three (3) Metering staff.

The Electric Department currently serves 3,885 residential, 668 commercial and 20 industrial electric customers. In addition, the Department operates and maintains approximately 1,400 street and security lights throughout its service area.

The 2022/23 requested Electric Department budget is \$16,432,722 with \$10,960,814 (66.7%) appropriated for purchased power expenses. Included in total projected electric revenues (\$18,549,867) is approximately \$3.9 million from Michigan Medical Marijuana (grow) Facilities (MMMMF). Also included is \$350,000 for power production and electric distribution system capital improvement projects.

Marshall's power supply portfolio consists of diverse generating assets and short-term and long-term power purchases designed to provide reliable service with stable, competitive costs. These assets include the Marshall Power Plant's three natural gas/diesel reciprocating engines and generators, and the Marshall Hydroelectric Project's two hydrogeneration units. In addition to serving as backup for critical City electric customers, the local generating units provide capacity, energy and Renewable Energy Certificates/Credits (RECs) that help offset power supply expenses. Long-term generating assets include the coal-fired Prairie State Energy Campus in Illinois, the natural gas-fired AMP Fremont Energy Center in Fremont, Ohio; five AMP hydroelectric plants on the Ohio River, and the Menominee Hydro (Menominee, Michigan) and Octono Hydro (Green Bay, Wisconsin) plants. Approximately 24% of the City's power supply requirements are served by from renewable energy resources.

Competitive rates, safety and reliability are prime areas of Electric Department focus. Capital improvement planning coupled with reinvestment in electric infrastructure helps ensure these primary goals are achieved. Proactive maintenance programs including line clearance (tree trimming), wooden pole testing, meter testing, monthly generating unit tests and many others are designed to help avoid unscheduled service interruptions. Electric Distribution and Power Plant staff are available on a 24 hours/day, 7 days/week basis to restore service in the event of an unscheduled interruption and to assist during community events.

The Electric Department is a member of a number of power supply and electric utility trade associations including the Michigan Municipal Electric Association (MMEA); the Michigan Public Power Agency (MPPA); American Municipal Power (AMP); the American Public Power Association (APPA) and the Michigan South Central Power Agency (MSCPA). These associations allow the City of Marshall to take advantage of economies of scale in power supply arrangements and in addressing state and federal regulatory issues and policies that would not otherwise be available to the City acting alone.

Dial-A-Ride

The City of Marshall facilitates two transportation programs: **Dial-A-Ride (DART) and the Albion-Marshall Connector (AMC.)** Both services are available Monday through Friday, 7:00 am – 5:00 pm. We currently have six buses, five of them operate as DART buses and the sixth operates solely as the AMC bus. All buses in our fleet are ADA accessible, equipped with a lift in order to accommodate individuals with disabilities.

Dial-A-Ride: DART recently celebrated our 47th anniversary. Transportation service began in 1974 in Marshall in order to address the transit needs within our community. We are a curb-to-curb, demand-response service. This means that we assist passengers on and off of our buses, however they must be able to get to and from the bus either unassisted or with the help of a caregiver, both at time of pick up and drop off. Our drivers are unable to leave the bus unattended for any length of time while in service. Individuals may schedule rides up to a week in advance, as well as call the same day to request a ride. Our service area includes the City limits and up to 1 mile outside of the City limits.

Historically, DART has been gifted the ability to provide rides at no charge to our senior and/or disabled passengers every Wednesday. This opportunity has been made available through the generous sponsorship from the Marshall Lions Club, the Marshall United Methodist Church, and There's Enough.

Albion-Marshall Connector: The AMC has one bus that travels between Albion and Marshall, with the service areas being within the City limits of both. We operate on a fixed-schedule with the same pick-up time frames each day in both communities.

Following the same guidelines as DART, the AMC is also a curb to curb, demand-response service. Although the AMC service is more limited than our DART program due to us only having one bus, we are able to provide a transportation service that helps to ensure that the individuals in need within both of our communities have access to affordable and reliable transportation.

Staff: The department consists of a part-time manager that also dispatches as needed, two part-time dispatchers, and six part-time drivers. Due to the part-time nature of the work and CDL requirements we are frequently challenged with maintaining full staff levels.

Fiscal Year	Total Passengers		Senior Citizens		Senior Handicapped		Non-Senior Handicapped	
	2019	2020	2019	2020	2019	2020	2019	2020
DART	22,705	13,712	5,554	3,464	5,725	3,840	1,684	900
AMC	4,691	2,497	1,319	819	201	115	308	117

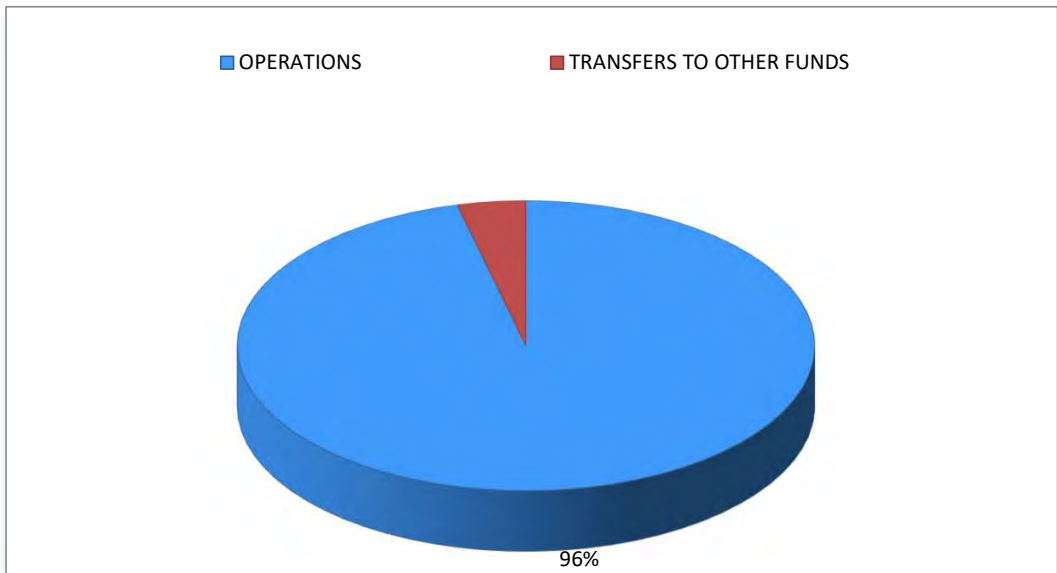

A look back at FY 2020 brings us to many firsts for DART and AMC. March 16, 2020 was the start of many changes for our department. Dart and AMC were faced with many tough decisions regarding the safety and wellbeing of not only our staff, but also our passengers. Much time and effort were spent to come up with the right balance to keep everyone as safe as possible while also being available for our passengers to get to and from work, grocery stores, medical appointments and pharmacy's. DART and AMC modified their schedule as needed over the past year to minimize exposure for employees and passengers. In addition to social distancing, mask wearing, and high traffic area repeated daily cleaning, DART was able to purchase an industrial sanitizing sprayer that has been instrumental in keeping our busses clean and safe for use.

Funding from the state and property tax revenue remain stable. We expect to request donations towards the end of the fiscal year to keep AMC funded for the entirety of the year. This has been common proactive for the last several year and very generous donations from local sources have carried the fund through in the end.

WASTEWATER

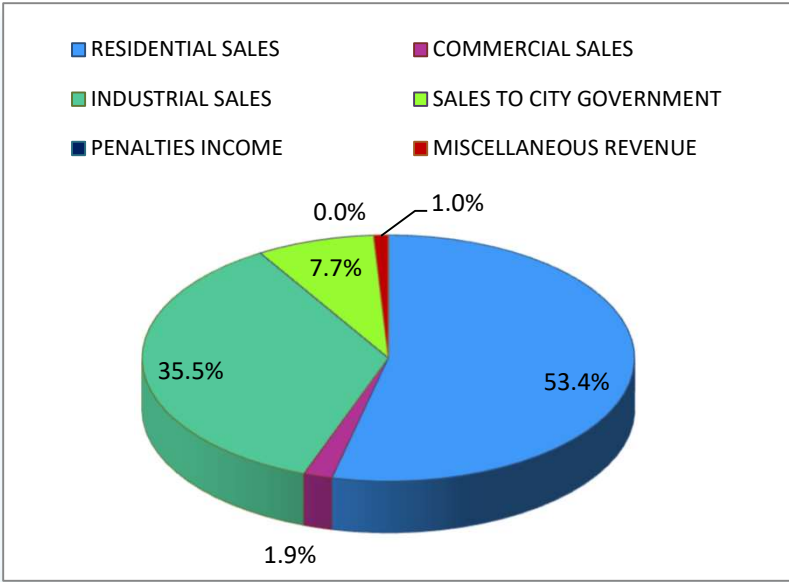

The Wastewater Department consists of the wastewater treatment plant (WWTP), lift stations, and the sanitary sewer collection system. The WWTP and 14 lift stations are operated and maintained by the Wastewater Department while the sanitary collection system is maintained with the assistance of the Department of Public Works (DPW). The department consists of five employees; a Wastewater Superintendent and four Plant Operators.

The WWTP operation treats approximately 1.5 million gallons of wastewater daily. The plant is in continuous operation and the effluent must meet the requirements of a National Pollutant Discharge Elimination System (NPDES) permit issued by Michigan's Department of Environment, Great Lakes, and Energy (EGLE). Staff conducts daily analysis and ongoing operational evaluation to ensure continuing compliance with NPDES permit requirements. The four levels of licensing for wastewater operators are regulated by EGLE with Class D being the lowest and Class A the highest. As a Class B wastewater treatment plant, EGLE requires at least one operator to hold a Class B or higher license.

A list of existing team members, their positions, and licensure is detailed at the end of this section. Maintaining the plant is the prime responsibility of the Wastewater Department and maintenance of the distribution system is completed by DPW. Both departments are integral towards the City's Vision by focusing on an improved Infrastructure. The plans for FY21 will preserve, rehabilitate and expand the city infrastructure and assets.

WATER

The Water Department consists of two separate operations; water production and water distribution. Water Department employees work from 7:00am to 3:30pm and are on-call Friday from 3:30pm to Monday at 7:00am for emergency calls in both the treatment plant and distribution system. The department is staffed with five employees through four positions. The Water Superintendent provides oversight of Plant operations and Distribution System maintenance, plus reporting and budgeting. The Plant Operator is responsible for water treatment, water testing, and maintenance of Water Treatment Plant. The Distribution Working Foreman is responsible for scheduling, tracking, and organizing work for the distribution workers. The Distribution Utility Workers are responsible for maintenance of services, hydrants, mains, meters, towers, and backup to the Plant Operator.

Water Production

The City of Marshall Well Field is located at 832 East Green Street. Currently the city pumps ground water from the Marshall Sandstone Aquifer to feed approximately 7,000 residential, commercial and industrial customers. The Water Plant was constructed in 1964 with an upgrade to new filters in 1996. Our capacity is 3.86 MGD (million gallons a day). There are 4 wells at this location equipped with 75hp motors driving submersible pumps to deliver the water to the system. Our water plant is a D2 rated plant filtering out iron and manganese. Chlorine gas is added for disinfection, fluoride for dental protection, phosphate for corrosion control, and potassium permanganate to help oxidize the iron in our filters. The water plant is controlled by a SCADA system which was upgraded in 2012. This allows us to operate pumps, control flow to the system, track water trends, evaluate water leaks and maintain safe water levels in the system.

The Water Plant Operator is responsible for the testing of the water in the City. Bacteria samples, monitoring samples set forth by EGLE, Lead and Copper and PFAS samples are all budgeted.

In 2020 the City saw a slight decrease of approximately 6 million gallons from the previous year. New housing developments and industrial growth should raise the water revenue in 2021.

Water Distribution

Water distribution operators are responsible for maintenance of the distribution system infrastructure, meters, water services, hydrants, mains and two elevated storage tanks.

Distribution maintenance consists of several different aspects. Water mains are flushed twice a year; in the spring and in the fall. This process takes employees around 3 weeks to complete. A systematic process of closing valves, flushing hydrants, and tracking water flow allows the water system to be cleaned. Water quality is tracked for each hydrant and an inspection is done to maintain fire suppression to the city.

Service orders are tracked through the city billing system for shutoffs/turn-ons, dead meters, water quality issues, and requests by home owners. Our goal is to respond to these issues as fast as possible. In the past 5 years response times have decreased and residents seem pleased with results from the water department.

The Department is installing automated water infrastructure (AMI) meters throughout all

of town in early 2021. The project will decrease water loss, decrease customer calls for meter issues, and allow the tracking of water leaks inside buildings, which will ultimately save customers money.

The city owns two water towers, a 200,000-gallon tank on Industrial Road and a 500,000-gallon tank on S. Kalamazoo. Each tank was inspected in 2019. Both tanks were found to be in good condition with minimal upgrades defined in the report.

There are approximately 55 miles of water main with diameters ranging from 4"-16" that feed water to customers. With the asset management inventory, we will get a better understanding of the age and condition of the system. All water mains are mapped on our GIS database and accessible to employees in the field for marking and emergency purposes. In the last 5 years we have seen a decline in water quality issues and water main breaks. Future infrastructure upgrades are in the budget for expansion and maintenance.

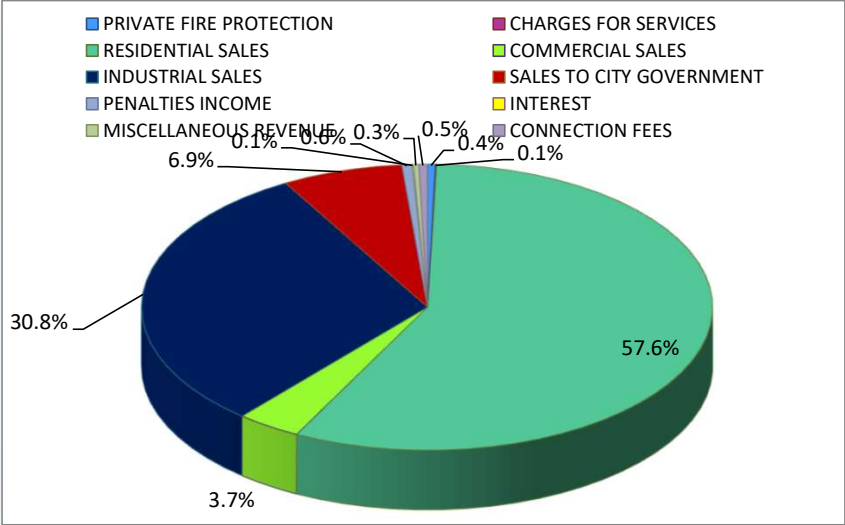

In response to the Michigan Department of Environment, Energy, and Great Lakes (EGLE) Lead and Copper Rule of 2018 the city is actively working to remove lead service lines from the system. Due to the rule's mandate to inventory all services lines by 2025, the Department is inventorying both sides of the service line (each side of the curb stop) in 2021. Once the final inventory of lead service lines is determined, the City must replace the lead service lines at a rate of 5% per year, not to exceed 20 years. This cost will be incurred by the City Water Fund annually until all services are replaced.

Budget

In the past 5 years we have seen an increase in operational costs to maintain distribution assets. A rate study was completed by staff and the MRWA in 2020, at no cost, with rate increases going into effect February 1, 2022. A two-year rate increase was approved and rates will be evaluated again in October of 2023 to ensure the department funding is appropriate. Capital improvements and operational costs to maintain distribution and treatment assets will be reflected in the rates. The Department continually works to meet the challenge of balancing prioritized projects, funding, and keeping rates to our customers as low as possible. The fact that we have an aging water plant, aging infrastructure, and debt does not allow for an easy process. Opportunities exist for low interest loans and grants to help cover the costs. Future emphasis will be put on Asset Inventory to better calculate Capital costs and operational budgeting.

Solid Waste Fund

The Solid Waste Fund is new to the City in 2021-2022 due to the adoption of a single hauler solid waste contract and subsequent contract with Granger Waste Services. The 5-year contract provides for trash, recycling, and bulk trash pick-up with a 3% annual price escalator. This contract is the first of its kind in the history of the City of Marshall.

Initial customer count for the services provided under the contract are approximately 2070 trash and 1000 recycling customers. The City is responsible for billing its residents with Granger billing the City for an agreed upon customer count.

Issues/Changes in 2022-2023 Budget:

- The city plans to maintain rates at its current level due to the higher-than-expected take rate for trash and recycling. Rates will be reviewed each year to determine if any changes are needed.

INFORMATION TECHNOLOGY FUND

The Information Technology (IT) Fund is an internal service fund used to account for the costs associated with the maintenance and development of the City's local area network (LAN), the phone system, and several software programs. Each department is charged a monthly fee for each personal computer they have attached to the LAN, each phone they have in the department, and the number of individuals that access various software programs.

The City is moving to increase the level of service provided to its operations from the IT Fund. Replacement schedule for computers is moving to 4 years from the current 6-7 years and a move towards a managed services provider is planned for the 2022-23 Fiscal Year. This will increase the amount charged to each fund.

Equipment is provided to enhance the job performance of each department. It allows communication with customers, suppliers, and colleagues to research relevant topics and to obtain and process useful business information.

Motor Pool

Description of Services:

The Motor Pool is responsible for the maintenance, operation, planning and funding of the City of Marshall vehicle and equipment fleet. The department is operated by three staff; Director of Public Services, DPW Superintendent, and Mechanic. The Mechanic executes necessary repairs on all vehicles in motor pool and the DPW Superintendent oversee and plans necessary work. The Director of Public Services is responsible for budget oversight and capital purchases.

Each year the fleet is reviewed to determine the various needs of each City Department. City staff maintain a master replacement schedule with project replacement date as the guidance for unit replacements. Vehicles and equipment have varying replacement schedules based on type of vehicle and the use. Typically, the City works to replace trucks on a 15 years schedule, bucket trucks on a 13-year schedule, heavy equipment every 18 years, mowers every 10 years, etc. Final replacement dates are coordinated between maintenance staff, operators, department heads and directors to most efficiently meet the City's needs while being fiscally responsible.

Objectives:

Our goal is to maintain our vehicles and equipment to the highest standards possible using all available diagnostic tools and best practices. Starting with fiscal year, the department will focus on frequent internal communication so that City departments understand the motor pool charges to their funds and continue to find value in the fund.

Budget:

The Director of Public Services, after listening to fellow staff and directors, has created transparency in the funding of motorpool by itemizing several cost areas of the fund and attributing cost directly to replacement and operations. Equality is being brought to each department through rental expense and rental income for all units owned by the funds. This will ensure that each department is paying their fair share for equipment used. The biggest lesson learned in this process is that the program is not a 'set it and forget it' program and will require analysis quarterly and for every department manager to ensure that efficiency with equipment use and need is continuously maintained.

From a maintenance standpoint we are looking at alternatives to lower those costs. Another way we are cutting costs is by utilizing MIDEAL pricing for vehicles and equipment. As the MIDEAL options broaden it may lower acquisition costs across our fleet of vehicles and equipment.
